May, 7th	160	12mo ...	1st ...	1,000	Printed	0 8 0	Gobinda Mohan Ráya Bidyábinodbáridhi, Kákiná.	The author of this work gives a brief description of each of the eighteen divisions or branches of Sanskrit learning and their sub-divisions. In this volume the subjects dwelt upon are the *Dwaitabád* and *Adwaitabád* of Hindu philosophers, the super-human origin of the Vedas, Vedic religion, the characteristic features and allegorical form of Pauranik literature, the nature and contents of the Tantras, and the Shastras of the Baishnabas of Bengal.	4233

Ishan says that his faith in Christianity was shaken when he discovered serious discrepancies and inconsistencies between the old and the new Testament and between the different Gospels. Some of the inconsistencies detected by him are mentioned in the pamphlet under notice. He has been also greatly shocked to find among preachers of the Gospel many who are liars, cheats, robbers, rakes, &c., and some clergymen who are vain, indolent and foppish and given to cheating and lying.	4234
May, 1st	212	8vo ...	1st ..	1,000	ditto ...	1 0 0	Mir Musaruf Hossein, Dailduar.	The story of the Mohurrum, that is to say, of the war between the grandsons of Muhammad and Yezid, and the death of the former which gave rise to the Mohurrum festival among Mussulmans, is related in this book. The book is not written on the strictly historical method.	4235

1885.	Pages.					Rs. A. P.			
May, 7th	4	12mo ...	1st ...	3,000	Printed	.....	Calcutta Christian Tract and Bible Society, 23, Chauringhi Road, Calcutta.	Christianity is judged by many people in the light of the testimony which is borne to its nature in the life and character of Christians. Christians should therefore lead virtuous lives in order that those who are not Christian may be tempted to become such.	4318
„ 7th	4	12mo ...	1st ...	3,000	ditto ...	.....	ditto ...	He is a true Christian who believes in Christ and really relies upon him for salvation, who obeys Christ's commandments and loves him and hates sin, &c.	4319
„ 7th	8	12mo ...	1st ...	3,000	ditto ...	.....	ditto ...	Describes the frame of mind in which prayers should be made, the different forms in which prayers are offered to God, the objects of prayer, &c.	4320
Mar., 6th	8	12mo ...	6th ...	5,000	ditto ...	.....	ditto ...	A Christian tract directed against popular Hinduism.	4321

June, 1st	4	12mo ..	1st ...	12,000	ditto ...	.....	ditto ...	Life vanishes as quickly as vapour. Men should therefore always keep themselves ready for death by placing full trust in Jesus Christ.	4324
„ 1st	4	12mo ...	1st ...	12,000	ditto ...	.....	ditto ...	The heart of man is naturally sinful. The Holy Ghost alone can purify it. But there can be no working of the Holy Ghost in the heart of man without faith in Jesus Christ.	4325
„ 1st	4	12mo ...	1st ...	12,000	ditto ...	.....	ditto ...	The anger of God, which is compared to the sword of Damocles, is always threatening those who thirst after wordly happiness.	4326
May, 16th	4	12mo ...	1st ...	12,000	ditto ...	.....	ditto ...	Condemns as absurd the attempt which educated Bengalis are making to represent Hindu mythology in a fairer light than that in which it is popularly regarded, and says that Jesus Christ does not stand in need of such whitewashing.	4327
June, 2nd	4	12mo ..	1st ...	3,000	ditto ...	.....	ditto ...	A child is represented as understanding the Christian doctrine of salvation through the crucifixion of Christ by seeing a wasp sting its mother and lose its fang, and thereby become incapable of stinging it also.	4328
„ 2nd	20	8vo dy.	1st ...	500	ditto ...	.....	Wesleyan Missionary Society, 16, Sudder Street, Calcutta	A sermon on Christianity.	4329

AGRICULTURAL EXHIBITION AT KISHENGUNGE IN THE DISTRICT OF PURNEAH.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 5th December 1885.

RESOLUTION.

READ—

Portions of the General Administration Reports of the Bhagulpore Division for 1882-83, 1883-84, and 1884-85, containing notices of agricultural exhibitions held at Kishengunge, in the Purneah district.

Letter from the Commissioner of the Bhagulpore Division, No. 2397R, dated 10th November 1885.

With the object of introducing improvements in agriculture and improved agricultural implements, and to encourage the breeding of a good class of cattle, an Agricultural Exhibition has been held at Kishengunge, in the district of Purneah, for three successive years. The exhibitions at Kishengunge appear to have attained a considerable measure of success, and there is no doubt that, by judicious management, such exhibitions are likely to become useful institutions.

The Commissioner of the Bhagulpore Division now reports that Sayyid Atta Husain, zemindar of Khagra, in the Purneah district, who has before given his support to the Kishengunge Exhibition, has offered to give a sum of

Rs. 1,000, to be invested in Government Promissory Notes at 4 per cent., the interest of which he desires should be spent in providing two medals, to be awarded annually at the Kishengunge Agricultural Exhibition—

(*i*)—To the owner of the best pair of plough bullocks, certified to have been used by the owner for plough work during the preceding 12 months; and

(ii)—For the best show of any named kind of agricultural produce, the description of produce to be selected by the district officer.

The donor desires that the medals shall be called the "Rivers Thompson" medals.

Sayyid Atta Husain further offers a sum of Rs. 200 to be distributed in prizes for agricultural produce at the Exhibition to be held at Kishengunge in January 1886, and promises donations of Rs. 100 per annum for the two succeeding years for the same purpose. It is proposed that the medals and prizes shall be awarded by the Kishengunge Agricultural Exhibition Committee.

The Lieutenant-Governor accepts with much pleasure the liberal offer made by Sayyid Atta Husain, and desires to record his high appreciation of the very laudable efforts of the zemindar of Khagra to promote a better system of agriculture in his estates. The Lieutenant-Governor further recognises the kindly feeling which has prompted the wish to associate Sir Rivers Thompson's name with the annual award of medals at the Kishengunge Exhibition. If he declines this suggestion, it is only from the conviction that most people will agree that the donor's own name should be perpetuated in connection with this excellent project. The medals should be in the name of Sayyid Atta Husain.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* and that a copy be forwarded to the Commissioner of the Bhagulpore Division for information and communication to the Collector of Purneah.

Ordered also that a copy of this Resolution, with copy of letter No. 2397R, dated 10th November 1885, from the Commissioner of the Bhagulpore Division, be forwarded to the Director of the Agricultural Department for information and favour of necessary action on paragraph 3 of the Commissioner's letter.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

RESOLUTION.

READ—

Letters from the Officiating Director of Public Instruction No. 5929, dated the 24th August 1885, and enclosures, and No. 1897, dated the 19th October 1885, regarding an Urdu Text-book on Surgery written by Assistant Surgeon Brij Lal Ghose, Rai Bahadoor.

IN paragraph 5, clause 4 of the Government Resolution of the 13th December 1884, on the subject of vernacular Text-books for Medical Schools, it was stated that in Urdu the *vade mecum* of Assistant Surgeon Brij Lal Ghose, Rai Bahadoor, of Lahore, may be adopted as the Text-book on Surgery, but that the author should revise his work if he wishes it to maintain its place. Assistant Surgeon Brij Lal Ghose has since revised his book, and the new edition has been approved by the Medical Text-book Committee. The Lieutenant-Governor is now therefore pleased to declare that Assistant Surgeon Brij Lal Ghose's Manual is the approved Urdu Text-book on Surgery.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secy. to the Govt. of Bengal.

ENDOWM NT MADE BY KUMAR GYANODA KANTA ROY AND HIS TWO BROTHERS IN AID OF MAHOMEDAN EDUCATION IN JESSORE.

GENERAL DEPARTMENT—EDUCATION—No. 429.

Calcutta, the 17th December 1885.

RESOLUTION.

READ—

Endorsement No. 5M.E., dated the 25th November 1885, from the Commissioner of the Presidency Division, enclosing copy of a letter from the Magistrate of Jessore, reporting that Kumar Gyanoda Kanta Roy, Kumar Manoda Kanta Roy and Kumar Hemoda Kanta Roy, zemindars of Chanoora, have made over for the public use a plot of land with buildings lying south of the Jessore Zillah School, valued at Rs. 1,500, for the establishment of a Mahomedan hostel in connection with that school.

The Lieutenant-Governor has much pleasure in accepting the gift above named, and directs that the thanks of Government be conveyed to the donors for their liberality.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies of it be forwarded to the Commissioner of the Presidency Division for information, and for communication to Kumar Gyanoda Kanta Roy, Kumar Manoda Kanta Roy and Kumar Hemoda Kanta Roy, and to the Director of Public Instruction, for information.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

REPORT ON THE ZOOLOGICAL GARDENS, CALCUTTA, FOR 1884-85.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 18th December 1885.

RESOLUTION.

READ—

The Report of the Committee for the management of the Calcutta Zoological Gardens for the year 1884-85.

The total income of the gardens during the year, including the Government grant of Rs. 20,000, amounted to Rs. 52,097 against Rs. 52,398 in 1883-84. From donations and subscriptions an income of Rs. 3,588 was derived against Rs. 550 only in the preceding year. Entrance receipts amounted to Rs. 8,511 against Rs. 13,045 in 1883-84 Government securities were sold to the value of Rs. 9,880, and of the other items of receipt the most important were by sale of animals Rs. 1,656, sale of fish and fishing Rs. 1,466, sale of milk Rs. 717, Fancy Fair receipts Rs. 1,627, rent Rs. 1,583, interest Rs. 790.

2. The expenditure of the year amounted to Rs. 50,685. The largest items were for establishment Rs. 8,611, food of animals Rs. 11,285, construction and repairs of buildings and roads Rs. 23,860. Only Rs. 931 were expended on purchase of animals against an average expenditure of Rs. 3,740 for the preceding four years; economy under this head was forced upon the Committee by the necessity of expenditure on account of constructions and repairs of buildings and roads which could no longer be postponed. It was on account of the lastnamed expenditure that it was necessary to sell half of the Society's invested securities. The most important works of the year were the repairs of the "Hermitage" and the renovation of the "Sonebursa" and "Cooch Behar" Houses, the construction of an iron granary, and of a new house for aquatic birds, and of a house for the nilgai, and the construction of a brick wall topped by an iron railing round the rhinoceros enclosure; the roads and footpaths were also much improved and the plants in the "Andool House" were rearranged.

3. The number of visitors who entered the gardens during 1884-85 was 120,813 against 188,532 visitors in 1883-84 and against an average number of 117,500 for the five preceding years. The Committee remark that "after due allowance has been made for the exceptional character of the year 1883-84, as that in which the International Exhibition caused an abnormal congress of visitors to Calcutta, the number of admissions during the year under report does not compare unfavourably with that of most of the previous years." The admission charge continued to be one anna on week days and up to 4 P.M. on Sunday, and 8 annas on Sunday evening. The Committee do not desire to return to the former higher rates of admission charges in the belief that the lower charges will advance the popularity of the gardens.

4. Though the Committee were unable to spend a large sum upon purchase of animals, considerable additions were made to the menagerie by presentations. These made up 248 out of the 337 acquisitions of the year. The most interesting additions were—

A young male hairy-eared rhinoceros (*rhinoceros lasiotes*) from Burmah;
A Persian ibex *capra ægagrus*);
A pair of young grizzly bears (*ursus horribiles*) } obtained by exchange from Mr. Rutledge
A crowned crane from North Africa } of Calcutta.
Four young tigers.

The Committee acknowledge with thanks the cordial co-operation of several divisional and district officers in the work of collecting animals for the Zoological Gardens, but regret that they have not received the powerful assistance in this respect which they had hoped for from the appointment of Divisional Commissioners in Lower Bengal to be *ex-officio* members of the Society. The attention of divisional and district officers is invited to the instructions given in Bengal Government, Revenue Department Circular No. 11, dated 6th November 1880, and Judicial Department Circular No. 15, dated 24th March 1880, and the Lieutenant-Governor trusts that they will, as far as practicable, help in the support and improvement of this institution.

5. The dairy farm and cattle-breeding establishment opened last year were kept up during the year under review; but since the close of 1884-85 the whole of the imported stock has unfortunately been lost by an outbreak of rinderpest. The loss is much to be regretted. The Committee promise to give details of their experiment in raising improved stock in their report for 1885-86.

6. In January 1885 the Committee asked that the Government grant to the gardens be raised from Rs. 20,000 to Rs. 36,000 per annum in order to enable them to meet the increasing expenses of the institution and to make necessary improvements and additions in the gardens and buildings. With reference to the financial pressure and to the many demands for works of a more pressing and important nature, it was not found possible to comply with the wishes of the Committee. After the close of the year, a grant of Rs. 1,800 was sanctioned for the maintenance of the dairy farm during 1885-86, but on account of the loss of the imported cattle this grant could not be utilised.

7. A proposal was made in July 1882 to form an Association under Act IV of 1882 for the management of the Zoological Gardens, and the proposed change in the constitution of the Committee which manages the institution was approved by the Government of India. Difficulties, however, were found in carrying out this intention, and the Lieutenant-Governor understands that the Committee do not desire to proceed with the scheme.

The Lieutenant-Governor has much pleasure in acknowledging the useful work done by the Committee during the past year.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

STATE AND PROSPECTS OF THE CROPS.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 22nd December 1885.

RESOLUTION

READ—

Resolution in the Revenue Department, dated the 18th November 1884, giving a summary of the meteorology of the monsoon of 1884, and describing the agricultural condition of the Lower Provinces, and the prospects of the crops at the end of the monsoon of 1884.

The rainfall statistics for each district of the Lower Provinces for the six months from May to October 1885.

Read again—

The correspondence of the present year on the state and prospects of the crops and the condition of the people, and on the effects of the floods during August and September in South-West and Central Bengal and in parts of the Bhagulpore Division, and on the destruction of life and property caused by the cyclone and storm-wave in Orissa.

IN the Resolution, dated 18th November 1884, recorded in this department by the Lieutenant-Governor, the character of the monsoon of that and the preceding year was described, and its effects on the harvests of 1884 was examined in detail. The conclusion to which that examination lead the Lieutenant-Governor was that the local areas specified in the margin gave more or less cause for anxiety on account of existing or apprehended scarcity of food owing to crop failure. Accordingly more than a year ago instructions were issued to ascertain with greater fulness and accuracy "the villages likely to be actually affected by distress in these local areas, the classes of people in each village likely to need relief, the best means of affording it, and the probable cost." Orders were also issued empowering local officers to meet with adequate measures of relief any sudden emergency, should such arise.

In the Rajshahye Division—
Parts of the Bogra district.
In the Presidency Division—
Parts of the Nuddea district.
Parts of the Moorshedabad district.
In the Bhagulpore Division—
Parts of the Maldah district.
In the Patna Division—
The sudder and Nawada sub-divisions of the Gya district.
The Behar sub-division of the Patna district.
In the Burdwan Division—
Parts of the Burdwan district.
Parts of the Beerbhoom district.

It is satisfactory to have to record that no such emergency came to pass. The cold weather months of 1884-85 passed over without the occurrence of any noticeable event in the way of distress among the people or demand upon Government for assistance. The winter rice and the *rubbi* harvests, even where they were poorest, afforded the people seasonable employment and relief; while the expenditure from local funds on district roads and other local improvements was judiciously directed towards the same end. By degrees the areas calling for special care or attention from Government narrowed down. The winter rice harvest in Bogra was fair, and consequently the district soon ceased to give cause for concern. A similar remark applies to Nuddea, which, until the floods of August, stood outside the area in need of relief. The Maldah district in the early part of the year called for observation, but after the favourable *rubbi* harvest matters improved there and no relief operations were necessary. In some isolated tracts in Moorshedabad the people were somewhat pinched, but there was nowhere any actual distress calling for Government aid. In Monghyr and Bhagulpore also a fair *rubbi* relieved the Government from its anxieties, and rendered relief measures unnecessary. In a report on the state of the country submitted to the Government of India in May last, the Lieutenant-Governor was able to state that, as far as the effects of the monsoon of 1884 were concerned, in the Patna and Burdwan Divisions alone did any reason for anxiety continue to exist. The anxiety in regard to the affected tracts in the Patna Division was always of a mitigated character and more in the nature of apprehensions for the future than of concern regarding existing distress. But over about 1,000 square miles in the Baukoora, Burdwan and Beerbhoom districts, in which there had been crop failure more or less pronounced for two successive years, serious distress, necessitating the establishment of systematic relief operations, became apparent in the spring. Before describing the extent and results of these operations it may be well to

state briefly the character of the south-west monsoon of 1885, and its effects, so far as ascertained, on the crop prospects of the province generally and of the Burdwan division in particular.

The first quarter of the year was unusually dry, the cold weather rains being almost entirely wanting. The earliest rains fell towards the end of April, having been preceded by extremely hot, dry weather. From April till the middle of May nor'westers, attended with heavy rain, were of frequent occurrence everywhere except in Behar and Chota Nagpore, but there ensued an interval of dry weather with high temperature. The rainfall up to the end of May was deficient everywhere, except in Orissa.

The south-west monsoon set in early in June over the province with about normal strength, and gave good general rain in all districts. In the latter half of June storms were formed near the head of the Bay, the first of which passed through South-West Bengal into Chota Nagpur and thence into the North-West Provinces, and the second crossed the coast near Balasore, and then passed into Chota Nagpur, when it broke up. Rainfall in June was therefore very considerably in excess of the normal in Chota Nagpur. It was also slightly in excess in East, South-West and North Bengal, while Behar and Orissa only received about half their normal amounts.

In July the Bay of Bengal monsoon current continued fairly strong, while the Bombay branch of the current was apparently stronger than usual. Between the two currents interaction took place which produced very heavy rain in Behar and North Bengal. The result was that the rainfall in July was very considerably in excess in North Bengal, in excess in Behar, in about normal quantity in Chota Nagpur and South-West and East Bengal, while in Orissa there was a decided deficiency.

In August and September, however, a great increase in the strength of the monsoon took place, and over the greater part of the province excessive rainfall was received during this period. No less than nine atmospheric disturbances occurred in Bengal during August, and all brought heavy rain. South-West Bengal, South Behar and Chota Nagpur received an excessive rainfall; North Behar and East Bengal also received falls in excess of the normal; Orissa received a normal fall; and North Bengal was slightly in defect. It will give some idea of the extraordinarily heavy rainfall in August when it is stated that the fall in the Midnapur division was from 22 to 23 inches in excess of the normal; in the Chittagong district it was 21 inches in excess; and in the 24-Pergunnahs, Bankoora, and Saugor Island districts the excess fall received was from 15 to 20 inches.

The rainfall in September was largely in excess in Behar; it was also largely in excess in North-East and South-West Bengal; while it was about normal in Chota Nagpur and Orissa. Speaking generally, over the whole province the rainfall in this month was about 33 per cent. in excess of the normal. As the rainfall of the two months August and September caused exceptionally heavy floods over large areas, it may be interesting to compare the actual fall in various portions of the province during these months with the normal fall. The timely distribution of the rainfall in the various districts is of importance, and in the table below the rainfall for each of the weeks in these two months in each meteorological division is given as a percentage of normal fall for the period:—

The actual rainfall expressed "as a percentage" of the normal fall of the period.

Chota Nagpur	169	48	210	194	143	75	88	224

At the commencement of October the south-westerly winds very rapidly fell off in strength, and though they gave fairly general rain to the province for the first two or three days, yet they practically ceased to give general rainfall from about the 3rd. Later on in the month atmospheric disturbances which formed in the Bay gave heavy rain to the Orissa Coast, and gave light general rain to the southern districts for some days. The rainfall in October was therefore below the normal in all districts, the fall in Behar and North Bengal being particularly scanty.

As a whole, the south-west monsoon of 1885 has been a strong one, though it was perhaps a little late in establishing itself, and fell off in strength very early and rapidly. It was particularly strong in August and September, and also strong in July. On account, however, of its early commencement and comparatively early close, the actual amount of rain received during the six monsoon months has not differed largely from the normal. Thus, while for the whole of the six months—May to October inclusive—South-West Bengal, Chota Nagpur, and East Bengal have received falls slightly less than 10 per cent. in excess of the normal, Behar, North Bengal, and Orissa have received falls slightly below it, varying from a defect of 4 to 15 per cent.

The effect of the rainfall on the crops can be stated with sufficient precision in general terms. The *bhadai* and *aus* crops of 1885 are generally ascertained to have yielded a fair outturn throughout the Lower Provinces, except in some inundated tracts. The prospects of the *aman* crop are everywhere favourable, and in many districts are excellent, except where it was lost on the deeply inundated low lands in Moorshedabad, Nuddea, Jessore, Hooghly, Howrah and Midnapore and parts of the Bhagulpore division. In most parts of the districts last named, however, it is certain that an unusual extension of cultivation of the *rubbi* crops will largely compensate for the loss of the lowland rice. So far the prospects of next year's *rubbi* are everywhere excellent.

Thus in reverting to the consideration of the relief administration of the year it will be apparent that no misgivings need be entertained in regard to the future. The rainfall of the past year, though it has, as will appear later on, brought heavy loss in property to large tracts of Central and South-Western Bengal, has assured to the Province, as a whole, an excellent winter harvest, with the promise of an equally good *rubbi*. Indeed, in the tracts affected by floods and inundations, the *rubbi* will, according to the latest accounts, be so abundant as in a measure to make good the loss that the floods have entailed.

It has been stated that during the spring it became necessary to take systematic measures to relieve distress in the Burdwan division. Measures first became necessary in certain isolated tracts in the Burdwan and Beerbhoom districts, but later on distress appeared in Bankoora, and there also it became necessary to administer relief. In the relief of distress in the Beerbhoom district the Government was ably and effectively seconded by the Indian Association and the Sadharan Brahmo Somaj, whose delegates were early in the field, and who afforded the local officers valuable assistance, while also distributing in an effective yet economical manner the funds which private charity had placed at their disposal. It has already been the Lieutenant-Governor's pleasurable duty to acknowledge and bring to the notice of the Government of India the praiseworthy action of these Associations during the period of distress; and in this final review of the relief administration, Sir Rivers Thompson desires to place on record his sense of the obligation under which these Associations and their delegates have placed him by their charitable and patriotic exertions. Good work was also done in Beerbhoom by two local Associations, and among the zemindars of the district, Babu Budh Singh and Babu Bishan Chand Dadhuria and Rae Dhanpat Singh maintained at much cost kitchens where a large number of poor and helpless persons were fed daily.

The classes who stood in need of relief were, as might have been expected, (*a*) the beggars and others who, in ordinary times, subsist on the charity of their neighbours; (*b*) the day-labourers. The poorer among the landholding and cultivating classes were no doubt a good deal pinched; but it cannot be said that among this class there was any general want of food in the distressed areas. The supply of food was always plentiful in the markets and at prices which can hardly be said to have touched famine rates. For example, the

highest price touched by rice, which is the grain usually eaten in those districts was 13 seers 14 chittacks in Burdwan, 13 seers 12 chittacks in Beerbhoom, and 16 seers 4 chittacks in Bankoorah. These are not famine rates, and the difficulty lay in the fact that the failure in the local crops restricted the labour market and forced on Government the necessity of providing employment for those whose circumstances prevented them from emigrating in search of work.

The relief operations of Government in the affected tracts fell under three main heads—(*a*) advances under the Land Improvement and Agricultural Loans Acts; (*b*) Public Works; (*c*) gratuitous charitable relief. Under the first-mentioned mode of relief administration Rs. 1,25,000 have been advanced in the Burdwan, Bankoora, and Beerbhoom districts. Some doubt was expressed by local officers and others as to the utility of the Agricultural Loans Act in Bengal, and some objections were offered to the extension of the Act to these Provinces. The experience of the last few months has shown how admirably suited the Act is to such circumstances as the Government had to deal with on the occasion under notice.

The Public Works system of relief was carried on by grants made from time to time in aid of the District Road Cess funds, and by special grants for excavation of tanks, &c., which did not fall properly within the province of Road Cess Committees to execute. The grants made since the 1st April 1885 to district funds for relief works amounted to Rs. 7,000, while the special grants for public works of the nature just mentioned reached a total of Rs. 22,000. It is believed that the districts have benefited permanently from the improvement in communications and water-supply which this expenditure has effected. Under the head of charitable relief, the accounts now before the Lieutenant-Governor show the expenditure, from the 1st of April last (when charitable relief on a systematic scale became necessary), to have amounted to Rs. 42,000. Of this sum, Rs. 24,100 was spent in Beerbhoom, Rs. 11,500 in Bankoora, Rs. 7,000 in Burdwan. These sums were, as suggested above, largely supplemented by expenditure from funds subscribed by the public and expended through the unofficial agencies, to whose effectiveness testimony has already been borne.

Besides the methods of relief enumerated above, there were other subsidiary methods, which it is unnecessary to do more than glance at on this occasion. For instance, chowkidars who, in these districts, are often paid by grants of service land, suffered with the rest of the agricultural population. For the relief of those public officers whose duty prevented them from leaving their villages in search of employment special measures of relief were devised. In like manner, special measures of assistance were set on foot to enable the women of the better classes, who could not go abroad in search of employment, to earn a livelihood at their own homes. These and the more regular operations cost the Government, from the 1st of April last to the end of November, a total sum of Rs. 1,96,000.

In the administration of all measures of relief it was sought from the beginning to adhere to the provisions of the Famine Code. The unofficial agencies for the distribution of charitable relief were satisfied with giving a daily dole of food, somewhat less than that prescribed by the Code, and some local officers were disposed to act likewise. No deviation, however, from the Code scale was sanctioned, the Lieutenant-Governor being convinced that, from a scheme drawn up with the care and deliberation which was bestowed on the Famine Code, no deviation should be lightly permitted. The following statement shows the daily average number of persons receiving charitable relief in each of these districts through Government agency and through private agency, as far as was known, in the months from May to September 1885:—

	Daily Average Number of Persons Receiving Charitable Relief.						
	At end of May.	At end of June.	At end of July.	At end of August.	At end of September.	At end of October.	In first fortnight of November.
Burdwan ...	4,549	5,162	5,350	4,595	3,177	942 (Charitable relief centres closed at the end of October.)	.....
Beerbhoom ...	12,695	14,340	7,987	5,701	6,367	4,543	2,370
Bankoora ...	1,900	2,070	2,360	2,715	1,924	(Charitable relief centres closed in October.)	.....

With the fall of normal rain in June in Burdwan and Bankoora, and abundant rain in Beerbhoom in July, all apprehensions of another failure of crops were removed, and the numbers of persons receiving charitable relief began steadily to diminish. In Bankoora closing of relief centres began from the 30th September, and in the middle of October reports of prospects in all three districts continuing to be favourable, the Lieutenant-Governor ordered that charitable relief administration should cease from the 10th November; relief works remaining open, where necessary, till the 1st December, by which date harvests were everywhere in active operation.

The success of the relief operations in the prevention of mortality from want of food, has been, the Lieutenant-Governor is glad to say, complete. From time to time reports, sometimes of a most circumstantial character, of mortality from starvation reached the Government, but these rumours were on investigation in every case proved to be without foundation. While acknowledging the assistance which the new-paper press had rendered to the Administration by bringing to notice facts concerning the condition of the people in the tracts suffering from scarcity, the Lieutenant-Governor found it necessary to call attention to the grave responsibility incurred by journalists who gave currency to statements which were not only false, but, there was reason to think, put forward with interested and injurious motives. There is perhaps, in the whole range of Executive Government, no more delicate or difficult task than the due administration of relief in times of scarcity. The Government has not to look only to the preservation of the lives of the people, but also to the economical administration of relief in the interests of the tax-payers and to the salvation of the spirit of self-help and self-reliance among those in receipt of relief. The destruction of that spirit would be the strongest condemnation of any system of relief. In such an arduous undertaking the hands of the Government are not strengthened by the propagation of false reports, which are calculated to excite distrust of the Government and to produce panic among the people.

FLOODS IN CENTRAL AND SOUTH-WESTERN BENGAL.

The Lieutenant-Governor now turns to consider the effects of the floods which occurred during August and September 1885 in South-West and Central Bengal, and in parts of the Bhagulpore Division. These floods were caused by the excessive rainfall of August and September, details of which have been given above. The Ganges rose to an unusual height at the point where it bends to the south and inundated parts of the districts of Maldah, the Sonthal Pergunnahs, North Bhagulpore and Purneah in the Bhagulpore Division. The great rivers into which the Ganges divides as it passes through Central Bengal also rose to unusual heights and spilled in destructive floods over Central and South-Western Bengal. The total area affected by serious floods is estimated to have been from 3,500 to 4,000 square miles.

In the Bhagulpore Division the damage done was not very extensive. In Maldah the *bhadoi* crop over about 100 square miles of country was to a large extent destroyed, and this caused temporary distress to the inhabitants of the locality which was flooded. Accordingly a grant of Rs. 16,000 was made for relief operations, and since then matters have rapidly improved. There is every promise of an excellent *rubbi* harvest, and no further anxiety on account of the district need be felt. In the Sonthal Pergunnahs, North Bhagulpore and Purneah the inundated areas are small, and the injury to crops of no considerable significance. Small sums, to relieve cases of urgent distress, have been placed at the disposal of the local officers; but the promise of a good *rubbi* harvest, which the silt deposited by the floods everywhere give, has put the people in heart and established their credit with their mahajuns. In these localities floods are of normal occurrence, and though the recent floods were unusually higher, the damage they have caused was not such as to call for any systematized relief operations on the part of Government.

Presidency Division.—The Moorshedabad district suffered more than any other part of these Provinces, Nuddea perhaps excepted, from the floods. In Moorshedabad it is estimated that the floods extended to about 1,250 square miles, or more than one-half of the total district area. The tracts flooded were

chiefly the Bagri or low-lying lands; while the Rarh or up-lands, which suffered in previous years from scanty rainfall, have been benefited by the heavy rain and partial flooding. For the immediate relief of distress in this district, the country was parcelled off into relief circles, and grants of Rs. 25,000 for agricultural loans and of Rs. 1,000 for charitable relief were made, these sums being in addition to those raised and received for the Inundations Distress Relief Committee. By the beginning of October the floods had subsided except in the very low lands. The jute and mulberry crops were, for the most part, saved, and *kalai*, which was most extensively grown, promised an abundant harvest at the end of November. The Moorshedabad district was one of those visited by the Lieutenant-Governor last September, and the impression left on Sir Rivers Thompson's mind, after personal inspection of the locality, was that, though much temporary hardship and discomfort had been caused to the cultivating classes, the floods had done them little or no permanent harm, and, in fact, had ensured to them for the next few years crops far more abundant than those which they have lost. This forecast seems likely to be realized, for the Magistrate, writing on the 7th instant, says :—

"The harvesting of the *amun* rice is now going on, and in the *Rarh* the yield will be over the average, although the early cessation of the rains has caused some damage. In the lower lands, too, a bumper crop will be reaped. Export from the *Rarh* has already commenced, and the Sub-divisional Officer of Kandi reports that the ryots have, as a rule, cleared off all their arrears of rent. The *kalai* crop will shortly be harvested, and there will be a bumper outturn. There is a good crop of mulberry and sugarcane, and the cold-weather crops are doing well.

"Distress appears to have entirely disappeared: the labouring classes are finding sufficient employment in the harvest operations now in progress, and the only class that now asks for help is the beggar class. As those on whose charity they used to live are again in the enjoyment of prosperity, there is no longer any reason why professional mendicants should be a charge on public funds."

The Lieutenant-Governor is glad to be able to add that there has been no abnormal mortality among the cattle, nor any unusual sickness among the people of the district, while the price of food-grain is approaching its normal cheap level.

A final report of the effects of the floods in the Nudden district has now been received from the officer, Mr. Melitus, who was placed on special duty to enquire into the extent of the floods and to distribute loans for the relief of distress. Mr. Melitus estimates the whole area affected by unusual floods at 2,194 square miles, and he classifies the inundated tracts into—Parts benefited by the floods, *i.e.*, where the injury to the standing crops was slight and not to be compared with the compensating advantages; these parts extend to 996 square miles. Parts where there was considerable loss, but where it is generally admitted that the ryots will be more than compensated for all loss after harvesting their *rabbi* crops; these cover 797 square miles. Lastly, parts where the greater portion of the crop was destroyed, and where, considering the injury to houses, loss of cattle, &c., the loss will probably not be compensated for by the increased *rabbi* outturn of this season; these parts are 401 miles in extent, and are situated chiefly in the Sudder and Kushtea sub-divisions. Mr. Melitus writes—

"There were two lines of inundation, which have hitherto been known as the north and south zone. The north zone comprises the direct floods of the Ganges and of the Matabhanga and connected rivers, and affected Kushtea and Chooadanga sub-divisions, and Meherpore sub-division east of the Bhairub. The flood was not severe, and was beneficial except in parts of the Kushtea sub-division. The south zone includes the floods of the Bhagiruthee and the Jellinghee and the cross country floods from the Lalitakuri side, affecting Meherpore sub-division west of the Bhairub, the whole of the Sudder, and a small part of Ranaghat. The inundation on this side was severe and destructive, but over nearly two-thirds of the area flooded; the injury will be compensated for by this year's *rubbi* crop

* * * * * * *

This inundation has been more felt than that of 1879, as it followed three successive bad years, and when it came there was very little stock in hand, though there were prospects of a bumper rice crop from late sowings. In its ultimate effects this year's inundation has been much more beneficial, as it has put down splendid deposits of silt, specially along the Jellinghee. In a few places the land has been spoilt by sandy deposits, but probably over not more than ¼ anna (from one to two per cent.) of the whole flooded country.

In the Sudder sub-division, which suffered most severely from the floods, the *aus*, or autumn crop of rice, is the most important crop of the year, and in that sub-division it is estimated by Mr. Melitus to have yielded no larger outturn than from 5 to 6 annas. The yield of the *amun* or winter rice will, it is feared, not exceed a three-anna crop in this part of the district. The Kushtea sub-division fared well, as there the *aus* was a ten-anna crop and the *amun* not much, if at all, less. In the rest of the district the crops were not much under the average. *Kalai* and the *rabbi*, or spring, crops everywhere promise well, and it is satisfactory to learn that *rabbi* cultivation this year is double that of ordinary years.

With regard to the condition of the people, there can be no doubt that there has been much general discomfort on account of loss of houses and personal property, while in the tracts where most damage was done there has been distress, nowhere, however, amounting to starvation, among the poorer classes. The district has rapidly recovered from the effects of the floods, and there is now no pressure anywhere which calls for help, except in a portion of the Sudder sub-division. Here Mr. Melitus has recommended that charitable relief on a small scale and some relief works should be established until the *rabbi* is harvested. This recommendation has been accepted by Government. Grants of Rs. 25,000 for agricultural loans, Rs. 5,000 for relief works, and Rs. 2,000 for charitable relief, have been sanctioned, and local subscriptions have also been raised for the relief of distress. Prices of food are no higher than last year, and it is to be hoped that, with the ripening of the *rabbi* harvest, all necessity for assistance will have disappeared. Even as the case now stands, it is well within the capacity of the district staff to deal with, and need not be a ground of anxiety to the Government or to the public.

Jessore.—Four hundred square miles of country were more or less flooded in this district, and much of the *aman* crop is said to have been destroyed in the Bongong sub-division, where also many houses were injured. Most of the *aus* crop, which was a good one, and of the jute crop, had been reaped before the floods. To meet immediate wants, a sum of Rs. 1,500 was placed at the Collector's disposal for charitable relief, which, in addition to local subscriptions which were raised, has proved sufficient to meet the requirements of the case. A small grant for agricultural loans was also made. The Commissioner has since visited the district, and has reported favourably as to its condition, and stated that there is no need for relief works. The district may be considered as past its difficulties.

Burdwan.—In the Burdwan district the latest report states that only a small tract of about 28 square miles of country were submerged chiefly by the overflow of the Bhagiruthee river, but in this area 15,000 bighas of *aman* rice and 10,000 bighas of *aus* rice were almost entirely destroyed. The land submerged, however, did not suffer from last season's drought, and the cultivators were therefore able to withstand the effects of the inundation. It is believed that the inundations will be of great benefit to the *rabbi* cultivation.

Midnapore.—There were two floods in this district. The first flood was chiefly confined to the basin of the Selai river, which burst its banks, flooding Ghattal town, destroying many houses, and overflowing the neighbouring country. Later on the waters of the Selai and of the Kusai rivers again rose and flooded the western portion of the district, breaching the embankments in many places. The Commissioner, summing up for the whole district, estimates that about 1,000 square miles were flooded, of which some 750 square miles were under cultivation. Of the cultivated area, it is estimated that 150,000 acres of rice were destroyed, 105,000 acres damaged, while 225,000 acres escaped without injury. The loss of human life was small (only three persons are mentioned as having been drowned and two persons as having been killed by the falling of a house), but some loss of cattle is reported. The loss of houses and the damage done to public roads were very great. Outside the flooded area an excellent rice crop is everywhere looked for, and in the area of inundation *boro* paddy will be grown. The Commissioner writes: "The district return will therefore be very little (if at all) below 12 annas. Rice will be cheap, and there will be good demand for labour." Grants of Rs. 10,000 for agricultural Loans and of Rs. 1,500 for charitable relief were made by Government, while local subscriptions

amounting to Rs. 6,500 were also raised for the latter purpose. Relief committees were organised where needed, and the latest accounts seem to show that the district is rapidly emerging from its difficulties.

Hooghly.—In this district the flood was heaviest in the Jehanabad sub-division, in which an area of about 233 miles suffered from serious inundation. In the Sudder and Serampore sub-divisions there was some loss of crop in low lands, tempered with corresponding gain in high lands. The loss of the *amun* crop is, however, an almost annual occurrence in parts of this district on account of the floods of the Damuda; and as a great portion of it is sown somewhat speculatively, its loss is not severely felt. No loss of human life occurred, and few cattle were drowned, but there has since been some mortality among the cattle on account of want of fodder. The damage done to houses was not great and no larger grants than Rs. 1,500 for charitable relief and Rs: 2,000 for agricultural loans have been sanctioned by Government.

Howrah.—In this district the latest estimate states that about 213 square miles of country were inundated, and that in two-thirds of this area the rice crop was lost. The sugarcane, jute, and vegetable crops are also said to have been destroyed over about 12 square miles more, while it is reckoned that about 15,000 houses have fallen, or are likely to fall, on account of damage done by the flood waters. The loss of the rice crop will be to some extent made up by an extension of *boro* rice cultivation, but the whole outturn of rice will be only six annas in the flooded area. Only one life is known to have been lost in the floods. Subscriptions for the relief of distress were raised in this district and in Hooghly, and a grant will be made, if necessary, for agricultural loans. The latest reports shew that the district has recovered, and that no anxiety need be now entertained in regard either to it or the Hooghly district.

A recommendation which has been received from the Commissioner of Burdwan that grants shall be made by Government in aid of the Road Cess funds of the Midnapore, Hooghly and Howrah districts is under the Lieutenant-Governor's consideration.

The preceding remarks exhaust the information which on this occasion the Government has to communicate to the public. They shew, as the result of careful and detailed enquiry, that no permanent injury whatever has been caused to the country by the recent floods. On the contrary, indeed, they show that, although there has been much discomfort and a great loss of personal property, there has been no loss of life, no considerable loss of cattle, while the coming harvests will be according to universal promise of such abundance as to more than compensate on the whole for the loss in moveable property that has occurred. The districts affected by the floods have everywhere shown great recuperative powers, which indeed were not unexpected by the Lieutenant-Governor, who remembers a similar display of patient self-reliance, and timely energy on the part of the people when nearly the same tract of country was afflicted with no less destructive floods in 1871. In conclusion, the Lieutenant-Governor desires to express his thanks to the officers who have zealously conducted the relief operations to a successful issue. He is especially indebted to Messrs. Coxhead, Anderson, Fiddian, Farrer and Melitus for their exertions in this cause. Sir Rivers Thompson also earnestly thanks those Public Associations and private gentlemen who, during the relief operations consequent first on crop failure and afterwards on the floods, have given active assistance to the Government. In an early part of this Resolution, mention has been made of the help given by the Indian Association. Here special reference is necessary to the co-operation afforded by the Flood Relief Committee, which by the Resolution of the 29th September the Lieutenant-Governor appointed to collect subscriptions and organise relief for those forms of distress with which Government agency cannot adequately cope. This Committee has acted in hearty co-operation with the local officers, and their exertions have been successful in the relief of persons who have lost their houses and moveable property. The Committee have received up to date subscriptions amounting to Rs. 49,086, including sums collected in Bombay, in Assam and at Lahore. Out of these funds allotments have been made to districts amounting to Rs. 28,900. The Committee and the subscribers have laid the people of the flooded tracts under a debt of gratitude, which the Lieutenant-Governor trusts may not be lightly forgotten.

CALCUTTA, *the 22nd December* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 18TH DECEMBER 1885.

At the close of the previous week pressure had been falling in Bengal almost continuously for four or five days, and the disturbed weather conditions which had previously existed over the North-Western and Central Provinces had extended to Bengal. There had also been a steady increase in the amount of cloud, and a decided increase in the humidity and temperature. These conditions continued on the 12th, when rain fell over considerable parts of Behar, the rainfall being decidedly heavy in the Shahabad district. On the 13th, the area of rainfall extended, and general, though in most instances light, rain fell over the whole of Behar and the greater part of Chutia Nagpur and North Bengal, and on the following day the area of rainfall drifted southwards, and a few showers fell at some of the stations in South-West Bengal and Orissa. From the 14th up till the 16th or 17th, skies began to clear in Bengal, and no rain was reported; but during this period a further fall of the barometer was taking place in the Punjab and the Central Provinces, which at some stations in the Punjab on the 17th amounted to more than a tenth of an inch. This rapid decrease of pressure was as usual attended with rain, the rainfall being light in the Punjab and in some parts of the North-West Provinces, and decidedly heavy in the Central Provinces. Pressure was also falling at this time in Bengal, and on the 18th rainfall was again reported over the greater part of Behar, and at some stations in North Bengal; but in other districts, though the sky had become heavily clouded, practically no rain had been reported. It will thus be seen that the weather for the greater part of the week has been somewhat disturbed and unsettled, the disturbance having been to a great extent brought about by the meteorological conditions of Upper and Central India

At the commencement of the week, with the gradual disappearance of the disturbed conditions above noticed, pressure commenced to rise, but during the second half of the week, when conditions were becoming favourable for the reproduction of unsettled and rainy weather in Bengal, pressure steadily and in some cases rapidly fell, so that at the close of the week pressure was very decidedly below the normal at almost all stations. The average pressure for the whole province has been about 0·044″ below the normal, but the defect has been rather unequally distributed, and while it has been equal to 0·07″ in Orissa and Chutia Nagpur and at Saugor Island and Gya, pressure on the other hand has been almost normal in North Behar.

The variations of temperature from the normal during the week have been exceedingly large, and, as a rule, temperature has been largely in excess of that of former years. The large variations are best shown in the following statement, which gives the comparison of the mean day and night maximum and minimum temperatures at eight selected stations, with the normal means for the week :—

For the week ending 18th December 1885.

Stations.	Maximum Day Temperature.			Minimum Night Temperature.		
	Normal averages for week.	Actual averages for week.	Difference.	Normal averages for week.	Actual averages for week.	Difference
Cuttack	83·0	84·1	+1·1	58·1	64·2	+6·1
Calcutta	76·0	77·9	+1·9	55·4	62·3	+6·9
Burdwan	77·5	79·5	+2·0	55·2	61·4	+6·2
Jessore	78·1	79·8	+1·7	53·7	60·1	+6·4
Dacca	78·4	80·6	+2·2	56·9	60·9	+4·0
Patna	74·1	70·6	—3·8	49·0	59·2	+10·2
Purneah	76·9	74·2	—2·7	49·3	?	.....
Hazaribagh	71·7	71·3	—0·4	49·4	57·0	+7·6

It will be seen that both in the day and night temperatures in most instances there has been an excess, but that the principal excess temperature has been during the night, and that in the case of Patna the average night temperature during the week has been 10° above the normal, at Hazaribgh and Calcutta the actual night temperature has been 7° above the normal for the week, while at Jessore, Burdwan and Cuttack the excess has been about 6°. The day temperatures on the other hand have, except at Hazaribagh, Patna and Purneah, been in excess by amounts varying from 1° to 2°. The comparatively exceedingly high temperature for the past week is also well shown by the fact that the mean daily temperature at Cuttack Calcutta, Burdwan and Jessore has been 4° in excess of the normal, while for the whole province the excess has been about 3°.

Rain, as has been above stated, has fallen in moderate quantity in Behar and Chutia Nagpur, while a few showers have been reported from Orissa and South-West Bengal; East Bengal has been almost absolutely rainless. South Behar has received the largest amount of rain, but even in this district the average is only 0·96 inch; Chutia Nagpur reports an average of 0·55 inch and North Behar an average of 0·42 inch. The quantities reported in Orissa and South-West Bengal, however, only average a few hundredths of an inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 18th of December 1885 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h & 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

c overcast, d drizzling rain, ≏ fog, ≏ dew.

ALEXANDER PEDLER,
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 21st December 1885.

MEMORANDA.

THE table appended to this memoranda presents the vital statistics of the principal Municipalities in Bengal for the week ending 5th December 1885. The figures in it indicate—

1. That births were registered in these Municipalities at the rate of 25·4 per 1,000 of population as opposed to 27·5 per 1,000 in the preceding week ending 28th November, and deaths at 42·8 per 1,000 against the same proportion, indicating a considerable falling off in the record of births.

2. That the following Municipalities returned the highest proportions of births and deaths :—

Births.

	Ratio per *mille*
Naraingunge ...	49·7
Bhaculpore ...	41·6
Comillah ...	38·5
Gya ...	36·9
Burdwan ...	33·6

Serampore ...	37·3
Bhagulpore ...	34·4
Burdwan ...	32·0
Purneah ...	31·2

3. That the mortality from the several death-causes was as follows in comparison with that in the preceding week :—

	Ratio per *mille* during the weeks ending—	
	5th December 1885.	28th November 1885.
Cholera	4·9	5·3
Small-pox	·3	...
Fever	19·1	20·8
Bowel-complaints	6·1	7·2
Injury	·3	·1
Other causes	12·1	9·4

The noticeable points indicated by the above figures are that fever and bowel-complaints prevailed with diminished severity, and that the maladies returned under the heads of "Other causes" exhibited enhanced mortality.

4 That while bowel-complaints and injury were nowhere actively severe, and small-pox proved noticeably fatal only in the Patna town, viz at 2·6 per 1,000 of population, the rest of the diseases caused the highest mortality in the following Municipalities :—

Cholera.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as [illegible] under this head not having been recorded under the authorised form of age classification.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1884-85, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

[Third Publication.]

NOTIFICATION.

The 15th December 1885.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules under section 138(*a*) of the Bengal Local Self-Government Act III (B.C.) of 1885.

PART I.

ELECTION OF MEMBERS OF UNION COMMITTEES.

Preliminary.

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority. Provided that if it is thought convenient a Union, whether of a single or more villages, may consist of one electoral ward only.

Of the qualification of Voters.

3. Every male person of the full age of twenty-one years, resident at the time of election within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid one rupee or more on account of road-cess, license-tax or chowkidari-tax, or who is a member of a joint undivided family, which has during such period paid one rupee or more on account of any such cess or taxes, shall be entitled to vote at such election.

Of the qualification of Candidates.

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

Of the manner of holding elections.

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand; any cost incurred in issuing notices under this rule shall be defrayed from the district fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the residing officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall if he thinks it necessary proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent. of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no second candidate the Commissioner will appoint a member under section 40 of the Act.

17. Except as provided by rules 14 and 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

PART II.

ELECTION OF MEMBERS OF LOCAL BOARDS.

Preliminary.

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner, after consultation with the Magistrate of the district, shall decide the number of members who shall be elected for each thannah within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thannahs in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than six months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

Of the Qualification of Electors.

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within such area;

(2) Has during the year immediately preceding such election—

(*a*) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;

(*b*) paid license-tax in respect of a trade, dealing, or industry carried on within such area; or

(*c*) been possessed of a clear annual income from any source of not less than two hundred and forty rupees;

(3) Being a member of a joint undivided family, one of the members of which is qualified to be an elector as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be entitled to vote at an election of members of such Local Board.

Of the Registration of Electors.

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the members of which are not appointed under section 15 of the Act, the Magistrate of the district shall cause to be prepared for each thannah within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall, from time to time, be corrected and added to as the Magistrate of the district may direct.

23. At least two months before the date fixed for the election for any thannah, a copy of the register showing the persons qualified to vote for such thannah shall be published at suitable places within that thannah. Copies of all the thannah registers shall also be published at the sub-divisional office.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thannah within one week of their presentation to the Magistrate; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thannah list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thannah list shall be permitted to vote.

Of the qualification and the nomination of Candidates.

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

(1) Is a member of a Union Committee within the area under the authority of the Local Board;

(2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

(*a*) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;

(*b*) paid a license-tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or

(*c*) been possessed of a clear annual income from any source of not less than one thousand rupees;

(3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (*a*) or (*b*) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thannah under the authority of such Local Board.

28. Any elector may for the thannah in which he is qualified to vote nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thannah election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thannah. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office; his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thannah at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

Of the manner of holding Elections.

32. The election for each thannah shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thannah shall be held at the head-quarters of the thannah, or at such other place within the jurisdiction of the thannah as the Magistrate may fix. The place of election shall be publicly notified at least one month before the date fixed for election and shall be stated in the notice issued under the next rule.

34. The date fixed for the thannah election shall be duly notified at the thannah, and at such other places as may appear suitable, at least one month beforehand.

A vernacular notice in the following form shall also, at least a fortnight before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register :—

"You are hereby informed that you are registered as a voter for the thannah and that you will be entitled to vote at the election of members of the Local Board to be held at on the 18 ."

35. An elector duly qualified under Rule 21 shall be entitled to vote for the thannah in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thannah, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thannah.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thannah are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 26.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thannah have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thannah are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thannah.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thannahs, such person shall be at liberty to choose which thannah he will represent, and in every other thannah for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

48. After all the thannah elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the Division for publication in the *Calcutta Gazette*.

Miscellaneous.

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or, otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

PART III.

ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

Election of Members of District Boards.

53. A Local Board shall not elect members for the District Board until (*a*) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (*b*) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (*a*) of the preceding rule, or the notification referred to in clause (*b*) of the same, whichever be later, the Local Board shall at a meeting elect the requisite number of members for the District Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board present at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected by two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election shall be held.

59. The only persons qualified for election as members of the District Board shall be :—(*a*) members of the Local Boards in the district ; and (*b*) persons qualified for election as members of any Local Board in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

Term of Office.

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation or removal or death shall be filled by the appointment or election, as the case may be, of another person ; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

B. District Boards.—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 22nd December 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Jessore Municipality for a public purpose, viz. for digging a municipal tank in the town of Jessore near Hurrish Chander Roy's lodging, in pergunnah Imadpore, in the district of Jessore, it is hereby declared that for the above purpose a piece of waste land, measuring more or less 2 bighas 2 cottas and 1 dhoor, is required. The land is bounded on the north by Hurrish Chander Roy Chowdharie's land ; on the south by the municipal road and Hurrish Baboo's land ; on the east by Baboo Brojo Nath Pal Chowdharie's land ; and on the west by land belonging to the Chanchra zemindars.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

Shahabad Collectorate, dated Arrah, the 16th December 1885.

W. MAUDE, for Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Patna and Gya State Railway, in the districts of Patna and Gya, will be put up to sale at noon on Thursday, the 21st January 1886, at the Bankipore Railway Station, and on Monday, the 25th January 1886, at Gya Railway Station.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the lands closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4*th*.—The balance of purchase-money due under the third condition may be paid either to the Deputy Collector for Railways or into the Government Treasury at Patna for lands situated in Patna, and in the Government Treasury at Gya for lands situated in the Gya district.

5*th*.—The plots of land will be sold revenue-free to the highest bidders.

6*th*.—The purchasers shall be put in possession on receipt of the orders of the District Collectors approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Calcutta, Railway Deputy Collector's Office, the 17th December 1885.

A. D'B. GOMESS, Deputy Collector for Railways.

NOTICE is hereby given that the proprietory right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Balasore, will be put up to sale at the Balasore Collectorate on Monday, the 8th February 1886, corresponding with 28th Magh 1293, Amli.

Conditions of sale.

1*st*.—The estate to be sold revenue-free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietory right of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to the existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or, if that day be a close holdiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

" S. J. Bagram by his attorney Mr. D. J. Bagram.
" D. H. Moses by his proxy Mr. K. C. Peters.
" C. Gregory by his proxy Mr. M. P. Gasper.

Mr. M. P. Gasper having been invited to take the Chair—

The notice convening the meeting having been read—

It was proposed by Mr. D. J. Bagram, and seconded by Mr. K. C. Peters, that it is desirable that this office should discontinue their business, and that accordingly it is hereby determined, in accordance with clause 16 of the deed of co-partnership, that a stop to the taking or making any further risks be made from this time.

Carried unanimously.

It was proposed by Hajee Noor Mahomed Jackeriah, and seconded by Mr. Sasibhoosun Muzumdar—

That the Committee and Secretaries be, and they are hereby, directed to take all necessary steps for closing all transactions of the co-partnership, discharging all liabilities of the co-partnership and distributing amongst the partners the surplus assets (if any) with all convenient speed, and upon the same being completed, to lay final accounts before the co-partnership at a meeting to be convened for that purpose, and that upon such account being passed as correct, a formal deed be executed by all the partners dissolving the co-partnership, and containing mutual releases between the partners.

Carried unanimously.

It was proposed by Mr. H. deSmidt, and seconded by Mr. Calli Dass Lahory—

That this meeting approves and sanctions the formation of a new Company to be incorporated under the provisions of the Indian Companies Act, 1882, with limited liability, to be called "The Amicable Insurance Office, Limited," for the purpose (amongst others) of carrying on an insurance business similar to the business heretofore carried on by this office.

Carried unanimously.

It was proposed by Mr. Calli Dass Lahory, and seconded by Hajee Noor Mahomed Jackeriah—

That these proceedings be published in the three next issues of the *Calcutta Gazette*, and three times in the Calcutta *Exchange Gazette*.

Carried unanimously.

The meeting was dissolved after the customary vote of thanks to the Chairman.

The Provincial Small Cause Courts Bill, 1885.

(*Chapter II.—Constitution of Courts of Small Causes.—Sections 1-8.*)

A Bill to consolidate and amend the law relating to Courts of Small Causes established beyond the Presidency-towns.

WHEREAS it is expedient to consolidate and amend the law relating to Courts of Small Causes established beyond the local limits for the time being of the ordinary original civil jurisdiction of the High Courts of Judicature at Fort William in Bengal and at Madras and Bombay; It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title, local extent and commencement.

1. (*1*) This Act may be called the Provincial Small Cause Courts Act, 1886.

XIV of 1874.

(*2*) It extends to the whole of British India except the scheduled districts as defined in the Scheduled Districts Act, 1874; and

(*3*) It shall come into force on the first day of July, 1886.

Repeal.

2. (*1*) The enactments specified in the first schedule to this Act are repealed to the extent mentioned therein.

(*2*) But all Courts constituted, limits fixed, appointments, declarations and rules made, jurisdiction and powers conferred, forms prescribed, directions given and notifications published under Act XI of 1865 (*an Act to consolidate and amend the law relating to Courts of Small Causes beyond the local limits of the ordinary original Civil jurisdiction of the High Courts of Judicature*) shall, so far as may be, be deemed to have been respectively constituted, fixed, made, conferred, prescribed, given and published under this Act.

(*3*) Any enactment or document referring to the said Act XI of 1865 shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof.

Saving of procedure and jurisdiction in certain cases.

3. Nothing in this Act affects—

[Act XIV, 1882, s. 8.]

(*a*) any proceedings prior to decree in any suit instituted before the day on which this Act comes into force or any proceedings after decree which were commenced before and were pending on that day;

[44 & 45 Vic., c. 58.] [Act XV, 1882, s. 1, and Act XI, 1865, s. 49.]

(*b*) the provisions of the Army Act, 1881, section 151; or

[Act XI, 1865, s. 12. cf. Act IX, 1860.]

(*c*) the jurisdiction of a Cantonment Joint Magistrate invested with civil jurisdiction under Act III of 1859, or of a Magistrate having jurisdiction under any law for the time being in force with respect to debts or other claims of a civil nature, or of Village Munsifs or Village Panchâyats under the provisions of the Madras Code.

Definitions.

4. In this Act, unless there is something repugnant in the subject or context,— [New] Mad. Regs IV and V of 1816.

(*1*) "Court of Small Causes" means a Court of Small Causes constituted under this Act:

(*2*) "District Court" means a principal Civil Court of original jurisdiction:

(*3*) "district" means the local limits of the jurisdiction of a District Court:

(*4*) "value", used with reference to a suit, means the amount or value of the subject-matter of the suit: and

(*5*) "local authority" means any municipal committee, district board, body of port commissioners or other authority legally entitled to, or entrusted by the Government with, the control or management of any municipal or local fund.

CHAPTER II.

CONSTITUTION OF COURTS OF SMALL CAUSES.

Establishment of Courts of Small Causes, and local limits of their jurisdiction.

5. (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, by order in writing, establish a Court of Small Causes at any place within the territories under its administration. [Act XI, 1865, s. 3.]

(*2*) The local limits of the jurisdiction of the Court shall be such as the Local Government may define.

Judge.

6. (*1*) When a Court of Small Causes has been established, the Local Government shall, by order in writing, appoint a Judge of the Court. [Act XI, 1865, s. 13.]

(*2*) The Judge may be the Judge of one Court of Small Causes or of two or more such Courts, as the Local Government directs.

Appointment of times of sitting in certain circumstances.

7. (*1*) A Judge who is the Judge of two or more such Courts may fix the times at which he will sit in each of the Courts of which he is Judge. [Act XI, 1865, s. 14.]

(*2*) Notice of the times shall be published in such manner as the High Court directs.

Additional Judge.

8. (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, by order in writing, appoint an Additional Judge of a Court of Small Causes. [Act XI, 1865, s. 15, and Act XVII, 1875, s. 94.]

(*2*) The Additional Judge shall discharge such of the functions of the Judge as the Judge directs. [Act VI, 1874, s. 7.]

The Provincial Small Cause Courts Bill, 1885.

(Chapter II.—Constitution of Courts of Small Causes.—Sections 9-16.)

[cf. Act XIV, 1882, s. 25.] (3) The Judge may withdraw from the Additional Judge any business pending before him.

[New.] (4) When the Judge is absent, the Additional Judge may discharge all or any of the functions of the Judge.

[Act XI, 1865, ss. 29, 30 & 31.] **9.** The Local Government may, by order in writing, direct that two Judges of Courts of Small Causes, or a Judge and an Additional Judge of a Court of Small Causes, shall sit together for the trial of such suits cognizable by a Court of Small Causes as may be described in the order.

Power to require two Judges to sit as a bench.

[Act XI, 1865, ss. 32, 33 and 34.] **10.** (1) Where two Judges, or a Judge and an Additional Judge, sitting together under section 9, are of the same opinion as to a decree or order to be made, the decree or order shall follow their opinion.

Decision in case heard by a bench.

(2) If they differ as to a question of law or usage having the force of law, or in construing a document the construction of which may affect the merits, they shall draw up and refer, for the decision of the High Court, a statement of the facts of the case and of the point on which they differ in opinion, and the provisions of the Code of Civil Procedure applicable to a reference to the High Court shall apply.

XIV of 1882.

(3) If they differ on any matter other than a matter specified in sub-section (2), the opinion of the Judge who is senior in respect of date of appointment as Judge of a Court of Small Causes, or, if one of them is an Additional Judge, then the opinion of the Judge sitting with him, shall prevail.

[Act XVIII, 1884, s. 5.] (4) For the purposes of sub-section (3), a Judge permanently appointed shall be deemed senior to an officiating Judge.

[Act XI, 1865, ss. 35, 36 and 40.] **11.** (1) The Judge of a Court of Small Causes shall, if the Local Government directs, appoint an officer to be called the Registrar.

Registrar.

(2) The appointment shall be subject to the sanction of the Local Government.

(3) Where a Registrar is appointed, he shall be the chief ministerial officer of the Court.

(4) The Local Government may, by order in writing, confer upon the Registrar, within the local limits of the jurisdiction of the Court, the jurisdiction of a Judge of a Court of Small Causes for the trial of suits of which the value does not exceed twenty rupees.

(5) The Registrar shall exercise the jurisdiction subject to the general control of the Judge.

[Act XI, 1865, s. 44.] **12.** (1) Subject to the sanction of the Local Government, the Judge of a Court of Small Causes may appoint an officer to be called the Clerk of the Court.

Clerk of Court.

(2) A Registrar of a Court of Small Causes may also be the Clerk of the Court.

[Act XI, 1865 s. 3.] **13.** Subject to the sanction of the Local Government, the Judge of a Court of Small Causes may appoint as many other ministerial officers as may be necessary.

Other ministerial officers.

[Act XV, 1882, s. 13.] **14.** (1) The ministerial officers of a Court of Small Causes shall, in addition to any duties mentioned in this Act, or in any other enactment for the time being in force, as duties which are or may be imposed on any of them, discharge such duties of a ministerial nature as the Judge directs.

Duties of ministerial officers.

[Act XVIII, 1884, s. 14, cl. (f).] (2) The High Court may make rules consistent with this Act, and with any other enactment for the time being in force, conferring and imposing on the ministerial officers of a Court of Small Causes such powers and duties of a non-judicial or quasi-judicial nature as it thinks fit, and regulating the mode in which powers and duties so conferred and imposed shall be exercised and performed.

[cf. Act XVIII, 1884, ss. 31, 36 & 37.] **15.** (1) A Judge, Additional Judge or Registrar of a Court of Small Causes may be suspended or removed from office by the Local Government.

Suspension and removal of officers.

(2) The Judge of a Court of Small Causes may suspend the Registrar of his Court if there appears to him to be urgent necessity for so doing, and may suspend or remove from office, or fine in an amount not exceeding one month's salary, any other ministerial officer of his Court who is guilty of misconduct or neglect in the performance of his duties.

[Act XVI, 1885, s. 19, sub-section (4).] (3) A fine imposed under sub-section (2) may, if the order imposing it so directs, be recovered by deduction of the amount thereof from any salary which may be or become due to the officer fined.

[Act XV, 1882, s. 15, and Act XI, 1865, s. 17.] **16.** (1) A Judge, Additional Judge or ministerial officer appointed under this Act shall not, during his tenure of office, either by himself or as a partner of any other person, practise or act, either directly or indirectly, as an advocate, vakíl, attorney, pleader or other legal practitioner, or be concerned, either on his own account or for any other person, or as the partner of any other person, in any trade or profession.

Penalty on Judge or ministerial officer practising or trading.

(2) If a Judge, Additional Judge or ministerial officer aforesaid practises, acts or is concerned in any trade or profession, in contravention of the provisions of sub-section (1), he shall be deemed to have committed an offence under section 168 of the Indian Penal Code.

XLV of 1860.

(3) Nothing in this section shall be deemed to prohibit a Judge, Additional Judge or ministerial officer from being a member of an incorporated or registered company.

The Provincial Small Cause Courts Bill, 1885.

(Chapter IV.—Practice and Procedure of Courts of Small Causes.—Sections 17-24.)

CHAPTER III.

JURISDICTION OF COURTS OF SMALL CAUSES.

Cognizance of suits by Courts of Small Causes.

17. (*1*) A Court of Small Causes shall not take cognizance of the suits specified in the second schedule to this Act.

[Act XV, 1882, ss. 18 and 19.]

(*2*) Subject to the exceptions specified in the said schedule, all suits of a civil nature of which the value does not exceed five hundred rupees shall be cognizable by a Court of Small Causes.

[Act XI, 1865, s. 7.]

(*3*) Subject to the exceptions aforesaid, the Local Government may, by order in writing, direct that all suits of a civil nature of which the value does not exceed one thousand rupees shall be cognizable by a Court of Small Causes mentioned in the order.

[Act XI, 1865, s. 12. Act XVII, 1870, s. 6.]

Exclusive jurisdiction of Courts of Small Causes.

18. Save as expressly provided by this Act or by any other enactment for the time being in force, a suit cognizable by a Court of Small Causes shall not be tried by any other Court having jurisdiction within the local limits of the jurisdiction of the Court of Small Causes.

CHAPTER IV.

PRACTICE AND PROCEDURE OF COURTS OF SMALL CAUSES.

[Act XIV, 1882, s. 5.]

Application of the Code of Civil Procedure.

19. The procedure prescribed in the chapters and sections of the Code of Civil Procedure specified in the second schedule annexed to the said Code, as amended by this Act, shall, so far as those chapters and sections are applicable, be the procedure followed in a Court of Small Causes in all suits cognizable by it:

XIV of 1882.

Provided that—

(*a*) where the applicant for a review of judgment was the defendant or one of the defendants, the Court shall not grant his application unless, at the time of presenting the application, he deposits in the Court the amount due from him under the decree or order; and

Act XI, 865, s. 21.]

(*b*) where a person to be arrested or property to be attached under section 648 of the said Code resides or is situate within the local limits of the ordinary original civil jurisdiction of the High Court of Judicature at Fort William in Bengal or at Madras or Bombay, or of the Recorder of Rangoon, the copy of the warrant of arrest or of the order of attachment, and the probable amount of the costs of the arrest or attachment, shall be sent to the Court of Small Causes of Calcutta, Madras, Bombay or Rangoon, as the case may be; and that Court, on receipt of the copy and amount, shall proceed as if it were the District Court.

[cf. Act XIV, 1882, ss. 86 and 223.]

Exclusion of written statements.

20. Except in a case of set-off, a written statement shall not be received unless required by the Court.

[Act XI, 1865, s. 18; and Act XV, 1882, s. 24.]

Transfer of decrees to other Courts for execution.

21. If it appears to a Court of Small Causes that a judgment-debtor under its decree has not, within the local limits of the jurisdiction of the Court, moveable property sufficient to satisfy the decree, it may, on the application of the decreeholder, send the decree for execution to another Court in the manner provided by the Code of Civil Procedure, sections 223 and 224.

[Act XI, 1865, s. 20.]

XIV of 1882.

Trial of suits by Registrar.

22. Suits cognizable by the Registrar under section 11, sub-section (*4*), shall be tried by him, and decrees passed therein shall be executed by him, in like manner in all respects as the Judge might try the suits, and execute the decrees, respectively:

[Act XI, 1865, s. 41.]

Provided that the Judge may transfer to his own file, or to that of the Additional Judge if an Additional Judge has been appointed, any suit or other proceeding pending on the file of the Registrar.

Admission, return and rejection of plaints by Registrar.

23. (*1*) When the Judge of a Court of Small Causes is absent, and an Additional Judge has not been appointed or, having been appointed, is also absent, the Registrar may return or reject a plaint for any reason for which the Judge might return or reject it.

[Act XI, 1865, s. 37.]

(*2*) The Judge may, of his own motion or on the application of a party, return or reject a plaint which has been admitted by the Registrar, or admit a plaint which has been returned or rejected by him:

Provided that, where a party applies for the return or rejection or the admission of a plaint under this sub-section, his application shall be made at the first sitting of the Court after the day on which the Registrar admitted, or returned or rejected, the plaint.

Passing of decrees by Registrar on confession.

24. (*1*) If, before the date appointed for the hearing of a suit, the defendant or his agent duly authorised in that behalf appears before the Registrar and admits the plaintiff's claim, the Registrar may, if the Judge is absent, and an Additional Judge has not been appointed or, having been appointed, is also absent, pass against the defendant, upon the admission, a decree, which shall have the same effect as a decree passed by the Judge.

[Act XI, 1865, ss. 38 and 43.]

(*2*) Where a decree has been passed by the Registrar under sub-section (*1*), the Judge may grant an application for review of judgment and re-hear the suit, on the same conditions, on the

(*Chapter V.—Supplemental Provisions.—Sections 25-34.*)

same grounds and in the same manner as if the decree had been passed by himself.

[Act XI, 1865, s. 39.]

Execution of decrees by Registrar.

25. (*1*) If the Judge is absent, and an Additional Judge has not been appointed or, having been appointed, is also absent, the Registrar shall receive applications for the execution of decrees and orders made by the Court of which he is Registrar or sent to that Court for execution, and may, subject to any instructions which he may have received from the Judge or, with respect to decrees or orders made by an Additional Judge, from the Additional Judge, make any orders in respect of the applications which the Judge might make under this Act.

(*2*) The Judge, in the case of any decree or order with respect to the execution of which the Registrar has made an order under sub-section (*1*), and the Additional Judge, in the case of any such decree or order made by himself, may, within fifteen days from the date of the order of the Registrar or of the execution of any process issued in pursuance of that order, reverse or modify the order, either of his own motion or on the application of a party.

XI, s. 45.]

Functions of Clerk of Court.

26. The Clerk of the Court shall, subject to the orders of the Judge, and of the Registrar if a Registrar has been appointed, receive plaints and applications, issue summonses and notices, and, unless the High Court has ordered otherwise, take charge and keep an account of all moneys and securities for money paid or delivered into or out of Court.

XI, 5, s. 21.]

Finality of decrees and orders.

27. Save as in this Act expressly provided, a decree or order made under the foregoing provisions of this Act shall be final.

CHAPTER V.

SUPPLEMENTAL PROVISIONS.

31. The Local Government may, by order in writing, abolish a Court of Small Causes.

[Act XI, 1865, s. 51.]

Saving of power to appoint Judge of Court of Small Causes to other office.

32. (*1*) Nothing in this Act shall prevent the Local Government from appointing a person who is a Judge or Additional Judge of a Court of Small Causes to be also a Judge of any other Civil Court subordinate to a District Court, or to be a Magistrate of any class.

(*2*) When a Judge or Additional Judge is so appointed, the ministerial officers of his Court shall, subject to such rules as the Local Government may make in this behalf, be deemed to be ministerial officers appointed to aid him in the discharge of his duties as the Judge of the other Civil Court or as a Magistrate.

[New.]

Application of Act to Courts with jurisdiction of Court of Small Causes.

33. (*1*) So much of Chapters III and IV of this Act as relates to the nature of the suits cognizable by Courts of Small Causes, to the exclusion of the jurisdiction of other Courts in those suits, to the powers and procedure of Courts of Small Causes, and to the finality of the decrees and orders of those Courts, applies to Courts invested under any enactment for the time being in force with the jurisdiction of a Court of Small Causes when the Courts are exercising that jurisdiction.

[New.]

(*2*) A Court invested with the jurisdiction of a Court of Small Causes, with respect to the exercise of that jurisdiction, and the same Court, with respect to the exercise of its jurisdiction in suits of a civil nature which are not cognizable by a Court of Small Causes, shall, for the purposes of this Act and the Code of Civil Procedure, be deemed to be different Courts.

XIV of 1882.

[Act XV, 1882, s. 47.]

Amendment of Indian Limitation Act.

34. In the third division of the second schedule to the Indian Limitation Act, 1877,—

XV of 1877.

(*a*) before No. 158, the following shall be inserted, namely :—

"157A. For a review of judgment by a Provincial Court of Small Causes, or by a Court invested with the jurisdiction of a Provincial Court of Small Causes when exercising that jurisdiction.	Eight days.	The date of the decree or order."

The Provincial Small Cause Courts Bill, 1885.

(Chapter V.—Supplemental Provisions.—Sections 35-36.—The First Schedule.—Enactments repealed.—The Second Schedule.—Suits excepted from the cognizance of a Court of Small Causes.)

and (*b*) in No. 173, the words, figures and letter "No. 157A and" shall be inserted before the word and figures "No. 162."

[Act XVIII, 1884, s. 65.]

Powers exercisable from time to time.

35. All powers conferred by this Act may be exercised from time to time as occasion requires.

[Act XVI, 1885, s. 27.]

Publication of certain orders.

36. All orders required by this Act to be made in writing by the Local Government shall be published in the official Gazette, but shall take effect from the date on which they are made.

(37) a suit against the Government to recover money paid under protest in satisfaction of a claim made by a revenue-authority on account of an arrear of land-revenue or of a demand recoverable as an arrear of land-revenue; [Act XV, 1877, Sch. II, Art. 16.]

(38) a suit the cognizance whereof by a Court of Small Causes is barred by any enactment for the time being in force.

STATEMENT OF OBJECTS AND REASONS.

THE suits cognizable in Courts of Small Causes are, subject to certain provisoes, described in section 6, Act XI of 1865, as "claims for money due on bond or other contract, or for rent, or for personal property, or for the value of such property, or for damages, when the debt, damage or demand does not exceed in amount or value the sum of five hundred rupees whether on balance of account or otherwise": and section 586 of the Code of Civil Procedure provides that "no second appeal shall lie in any suit of the nature cognizable in Courts of Small Causes, when the amount or value of the subject-matter of the original suit does not exceed five hundred rupees." Since section 6 of the Act of 1865 was enacted, a vast quantity of case-law has grown up around it, and, as the rulings of the Courts have not been uniform, doubts constantly arise on the question whether a suit is or is not a suit of the nature cognizable by a Court of Small Causes, and, consequently, whether or not, where the suit is of value not exceeding five hundred rupees and the original decree made in it was not final but was open to appeal, an appeal will also lie from the appellate decree in the suit. It appears to the Government of India that the conflicting constructions placed on section 6, of which some are due to the progress of legislation during the last twenty years (I. L. R. 3 All. 66), render a more accurate definition necessary of the suits of which Courts of Small Causes may take cognizance, and that legislation to this end should follow sections 18 and 19 of the Presidency Small Cause Courts Act, 1882, in declaring the jurisdiction of those Courts to extend to all suits of a civil nature, subject to specified exceptions. This Bill has accordingly been prepared, its primary object being to remove the doubts now felt as to the effect of section 6, Act XI of 1865; and, as several sections and parts of sections of that Act have, from time to time, been repealed and other sections are obsolete as regards both expression and utility, it has been considered desirable to repeal the Act and re-enact the substance of the extant portions of it.

2. The parts of the Bill which appear to call for remark will be noticed in the following paragraphs.

3. *Section 3.*—The limited extent of the savings in this section, as compared with section 12 of the Act of 1865, is due to the Government of India having decided to move the legislature to repeal Act XI of 1841, and connected Acts, regarding Military Courts of Requests for Native Officers and Soldiers, and so much of Bombay Regulation XXII of 1827 as relates to the trial of small suits by superintendents of bázárs in military stations in the presidency of Bombay.

4. *Section 8.*—Inconvenience has resulted from the restrictive terms in which section 15 of the Act of 1865 was drawn. It is proposed, therefore, to empower Local Governments to appoint Additional Judges without limit of time.

5. *Section 9.*—Sections 29 and 30, Act XI of 1865, appear to be little, if at all, used. It seems unnecessary, therefore, to retain them. If it is deemed desirable that two Judges should anywhere sit together as a bench for the trial of particular suits or classes of suits, a bench can be constituted under section 9 of the Bill, corresponding with section 31 of the Act of 1865.

6. *Section 17.*—This section declares the jurisdiction of a Court of Small Causes to extend to all suits, subject to certain exceptions specified in the second schedule to the Bill.

7. *Second Schedule.*—This schedule follows, with slight modifications section 19 of the Presidency Small Cause Courts Act, 1882, so far as that section goes.

8. As regards No. (11) of the suits specified in the schedule, it has been held that suits for the redemption of a mortgage of moveable property (16 W. R. 58) or for the sale of moveable property by enforcement of lien (9 W. R. 136) do not now, and (I. L. R. 7 All. 855) ought not to, lie in a Court of Small Causes.

9. The suits referred to in No. (20) are of two descriptions—

(*a*) by a decree-holder to have the right of his judgment-debtor declared to property of which the attachment has been raised; and

(*b*) by the owner of attached property, after disallowance of his objection to the attachment, either against the decree-holder or an auction-purchaser, to recover the property.

Suits of description (*a*), being suits for declaratory decrees, appear to have been held by most, if not all, High Courts not to be cognizable by a Court of Small Causes (10 W. R. 141; I. L. R. 4 Bom. 503; 3 All. H. C. Rep. 156: Punjab Record, No. 84 of 1870). As to suits of description (*b*), there is a conflict of authority (I. L. R. 7 All. 152, and cases there cited). It would seem, apart from section 6 of Act XI of 1865, that if suits of the one description

ought not to be cognizable by Courts of Small Causes, the jurisdiction of those Courts ought to be barred in respect of suits of the other description also.

10. The suits referred to in No. (30) are of superior importance, and there should be a right of appeal from decrees passed in them. The rulings at I. L. R. 3 All. 747, and in the cases there cited, were made solely with reference to the language of section 6 of the Act of 1865. Most of these suits have been excluded from the jurisdiction of Presidency Small Cause Courts.

11. As regards the suits which No. (32) is intended to exclude from the jurisdiction of Courts of Small Causes, Westropp, C. J., has observed that "the very possible necessity of varying the maintenance from time to time, and of enquiring into the circumstances of the claimant, or of the family estate, or the family itself, shows how unsuitable maintenance suits are for the Small Cause Courts" (I. L. R. 2 Bom. 630). Arrears of maintenance are usually claimed on one of four grounds—

(*a*) the legal right of the plaintiff to maintenance;
(*b*) a decree of Court;
(*c*) an award of arbitrators fixing the maintenance; or
(*d*) a special bond or other contract for the payment of maintenance.

Suits on ground (*a*) involve intricate questions of title, and those on grounds (*b*) and (*c*) have been held not to be cognizable by a Court of Small Causes (6 All. H. C. Rep. 91, and cases there cited; 3 All. H. C. Rep. 117 and 7 All. H. C. Rep. 329). Suits on ground (*d*) are at present cognizable by a Court of Small Causes. But, seeing that even in those suits questions may be raised as to re-adjustment of maintenance (5 C. L. R. 18), and possibly as to forfeiture (I. L. R. 7 Bom. 84), it seems desirable that suits for maintenance generally, including suits of the kind referred to at I. L. R. 7 Bom. 537, should be excluded from the jurisdiction of Courts of Small Causes.

12. As regards No. (33), reference may be made to 1 All. H. C. Rep. 205, and I. L. R. 1 All. 444, 2 All. 905, and 9 Cal. 183. Moreover, in suits which No. (33) is intended to cover, claims may be, and often are, included which ought not to be cognizable by a Court of Small Causes.

13. As regards Nos. (34) and (35), reference may be made to the case reported at I. L. R. 5 All. 438. It seems proper that such a suit as is there described, involving, as it may, intricate village-accounts and important questions of right, should not be cognizable by a Court of Small Causes. Moreover, the decree in the suit should be open to appeal, as ordinarily the decree of a Revenue Court would be in a suit by a recorded co-sharer against a lambardár.

14. There appears to be no sufficient reason for excluding any suits for contribution from the jurisdiction of Courts of Small Causes, except the suits referred to in Nos. (36) and (38). As to the cognizance of suits for contribution generally under the Act of 1865, there has been some conflict of authority, the High Court at Fort William holding them not to be cognizable by Courts of Small Causes (B. L. R., F. B., 675, and I. L. R. 10 Cal. 388), and the High Courts at Madras and Allahabad holding them to be cognizable by those Courts (5 Mad. H. C. Rep. 200, and I. L. R. 3 All. 66).

There would seem, apart from section 6 of Act XI of 1865, to be no sufficient ground for excluding from the cognizance of a Court of Small Causes such a suit as that reported at I. L. R. 7 All. 378.

15. No. (38) will exclude the following among other suits:—

(*a*) suits for compensation for infringing copyright (I. L. R. 6 Cal. 499);
(*b*) suits for compensation for infringing the exclusive privilege of an inventor (Act XV, 1859, section 22);
(*c*) suits against Sovereign Princes or Ruling Chiefs, or Ambassadors or Envoys of Foreign States (Act XIV, 1882, section 433);
(*d*) suits for dissolution of marriage or judicial separation (Act IV, 1869); and
(*e*) suits founded on the liability of a contributory (Act VI, 1882, section 125).

16. *Sections 19 and 34.*—As to the second proviso to section 21 of the Act of 1865, reference may be made to I. L. R. 6 Cal. 236 and 8 Cal. 287. As the law now stands, a person wishing to have a decree set aside may apply for (*a*) a new trial under section 21, Act XI of 1865, or (*b*) a review under Chapter XLVII of the Code, or (*c*) both a new trial and a review. "It is difficult," as observed by the learned Chief Justice of the High Court at Fort William, "to conceive any reasons which would justify a new trial which would not also afford good grounds for a review" (I. L. R. 6 Cal. 238). It is proposed, therefore, to replace the alternative or cumulative remedies of new trial and review by the single remedy of review, but to impose on applications for review restrictions similar to those imposed by the existing law on applications for new trial.

17. *Section 21.*—This section supplements section 223 of the Code of Civil Procedure, which extends to Courts of Small Causes. Section 20 of the Act of 1865, which the section

supersedes, appears in some places to have been construed to require a decree-holder to proceed in the first instance against moveable property even when the moveable property of the judgment-debtor is known to be of no appreciable value.

18. *Section 26.*—Under section 45 of the Act of 1865, it is the duty of the Clerk of the Court to "take charge of and keep an account of all moneys payable or paid into or out of Court" and to "enter an account of all such moneys in a book belonging to the Court to be kept by such Clerk for that purpose." The terms of that section have been held to preclude the transfer of the duty of receiving moneys and keeping accounts in a Court of Small Causes to the special staff of accountants which in some provinces is employed at the head-quarters of each district to receive and account for moneys paid into the Civil Courts located there. It has been provided in section 26 of the Bill that the High Court may, if it sees fit, relieve the clerk of the Court of his duties as cashier and accountant.

19. *Section 32.*—The High Court for the North-Western Provinces has held (5 All. H. C. Rep. 55) that section 51 of the Act of 1865 does not authorise the Local Government to permanently and unconditionally invest the Judge of a Small Cause Court with the powers of a Principal Sadr Amín, and that the section only contemplates an occasional investment of the powers, and one contingent on the state of the business of the Court. Under section 32 of the Bill the question will not again arise.

20. In sections 32 and 33 regard has been had to I. L. R. 8 Bom. 230, 9 Bom. 237, 1 All. 87, 1 All. 624, and 3 All. 710. It has been made clear that, for the purposes of sections 223 and 295 of the Code of Civil Procedure and section 21 of the Bill, the Court of a Judge of a Court of Small Causes when the Judge is acting as such, and the Court of the same Judge when the Judge has been appointed to be and is acting as a Subordinate Judge, are different Courts, and that, for the same purposes, the Court of a Subordinate Judge when the Judge is acting as such, and the Court of the same Judge when the Judge has been invested with the jurisdiction of a Court of Small Causes and is exercising that jurisdiction, are different Courts.

21. The first proviso to section 21 of Act XI of 1865 has been omitted because its retention has been rendered unnecessary by the extension of section 108 of the Code of Civil Procedure to Courts of Small Causes.

22. Section 52 of the Act of 1865 has been omitted, as it is believed not to be used.

23. It is proposed by the first schedule to make section 648 of the Code of Civil Procedure, which extends to the Presidency Small Cause Courts, extend also to Provincial Courts of Small Causes.

24. It is proposed by the same schedule to repeal so much of the second schedule of the Code of Civil Procedure as extends sections 121 to 136 of the Code to Provincial Courts of Small Causes. These sections do not extend to Presidency Small Cause Courts, and their provisions, which contemplate elaborate and lengthened trials in suits of superior importance, are incompatible with the speedy disposal of the petty suits cognizable by a Court of Small Causes. The want of the sections is not likely to be really felt in Courts of Small Causes, while their application to those Courts is not unlikely to be taken advantage of for the purpose of delaying proceedings.

25. So much of sections 137, 447, 453, 454 and 456 of the Code of Civil Procedure as requires applications to Courts of Small Causes to be supported by affidavit is proposed to be repealed. Chapter XVI of the Code, respecting affidavits, does not extend to Provincial Courts of Small Causes.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd December, 1885, and was referred to a Select Committee :—

No. 20 OF 1885.

A Bill to amend Act XXXVI of 1858.

WHEREAS it is expedient to amend Act XXXVI of 1858 (*an Act relating to Lunatic Asylums*) ; It is hereby enacted as follows :—

1. After section 18 of the said Act the following section shall be inserted, namely :—

"When an Executive Government has not established within its limits a public asylum for the reception and detention of lunatics under this Act, the Governor General in Council may, from time to time, appoint an asylum established in British India beyond those limits to be an asylum to which a Magistrate or Judge exercising jurisdiction within those limits may send lunatics as to an asylum established under this Act for the division in which his jurisdiction is situate."

STATEMENT OF OBJECTS AND REASONS.

IN some of the smaller Provinces, such as Coorg and the Andaman and Nicobar Islands, the Local Governments have not established asylums under Act XXXVI of 1858 for the reception and detention of lunatics. Occasions have, however, arisen on which inconvenience has been experienced by reason of there not being asylums to which Magistrates exercising jurisdiction in those Provinces may send lunatics under the provisions of the Act. The object of this Bill is to enable the Governor General in Council to appoint asylums to which lunatics may be sent from those Provinces.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1884-85.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 23rd December 1885.

RESOLUTION.

READ—

The Report on Public Instruction in Bengal in 1884-85.

The Report, which is full and instructive, is submitted by Mr. C. H. Tawney, who has officiated as Director of Public Instruction since the 8th March 1885 on which date Mr. A. W. Croft, C.I.E, took furlough to England for thirteen months. Owing to the postponement to April of the University examinations, it does not contain a complete account of the progress of education in colleges and high schools.

2. The following table shows the advance made in schools of all kinds that submit returns to the Department:—

Class of Institution.	1883-84.		1884-85.		Average number of pupils, 1884-85.

Grand Total ...	70,257	1,392,609	72,641	1,470,180	.....

This year there is a much greater increase in schools than in 1883-84, while the increase in pupils has slightly declined. The increase in schools is, however, little more than one-fifth of that in 1883. The following table shows the comparative increase during the last six years:—

	Schools.	Pupils.
In 1880, a gain of	6,098	91,323
„ 1881 „	8,131	109,459
„ 1882 „	10,572	178 156
„ 1883 „	10,809	204,447
„ 1884 „	1,369	81,517
„ 1885 „	2,384	77,571

The apparent decrease in special institutions is due principally to the retransfer of 35 *kyoungs* to the head of unaided private institutions. The decrease under private institutions is probably to be accounted for by the transfer of elementary schools to the departmental system.

3. The expenditure of the Department from public and private sources during the last two years is compared in the following table:—

	Year 1883-84.		Year 1884-85.	
	Government expenditure. (Net.)	Total expenditure.	Government expenditure. (Net.)	Total expenditure.
	Rs.	Rs.	Rs.	Rs.

Secondary instruction	5,72,000	23,62,000	5,81,000	24,35,000
Primary	6,05,000	25,36,000	6,51,000	27,18,000

Superintendence	4,60,000	4,63,000	4,97,000	5,00,000
Total ...	29,43,000	74,63,000	30,30,000	78,15,000

Government expenditure has increased by Rs. 1,38,000, while the proportion of such expenditure to the total cost of education is the same as last year Under collegiate instruction there has been an increase of Rs 39,000, and under secondary instruction of Rs. 10,000.

There is a large falling off in the fees of Arts Colleges, Government and aided, owing to so many of the students having completed the two years' study required for the F. A and B. A. Examination on the 31st of December 1884. In high English schools maintained by Municipal Boards, and in all lower primary schools, the cost to Government has increased. In all other schools it has decreased. That the figures showing the percentage of attendance in schools are not very trustworthy in all cases, is shown by the fact that the percentage of attendance in lower primary schools maintained by Municipal Boards is represented to have fallen from 75 to 39·1. Dr. Martin, however, is of opinion that the percentage of 70·3 for aided lower primary schools in the Dacca Circle, which varies very little from that given last year, can be relied on. If this is the case, the result is very satisfactory.

4. The following table gives a classification of pupils during the two last years according to the stage of educational progress reached:—

Stage.	Number of Pupils.		Increase.	Decrease.
	1883-84.	1884-85.		
High	11,928	11,335	.....	593
Middle	35,270	36,223	953	.....
Upper primary	70,320	69,823	.....	406
Lower ,, able to read printed books	648,913	745,745	96,832	...
Ditto not able to read printed books	692,897	671,759	.....	21,138
Total	1,359,237	1,434,905*	75,993	

* Exclusive of 314 pupils whose returns have not been furnished.

The decrease in the number of high school pupils is attributed by the Officiating Director to the falling off of the two upper classes in the month of March, which is now, on account of the change of the date of the University examination, the period of minimum numerical strength in schools and colleges. It is satisfactory to observe that the percentage of students unable to read printed books has decreased this year from 43·6 to 39·8.

5. There is very little variation this year in the proportion of students of different creeds and castes in public institutions. The figures show that, as in last year, 78 per cent. of the pupils in Arts colleges belong to the middle classes of society, with incomes varying from Rs. 200 to Rs. 5,000 a year. The proportion of pupils belonging to the richer classes of society in Arts colleges is 12 per cent., and in professional colleges 10 per cent. These figures are not likely to vary much from year to year. It is well known that the majority of youths seeking an education in our colleges belong to the professional classes.

6. There is a satisfactory improvement this year in the amount of work done by Deputy Inspectors. Only 11 Deputy Inspectors have fallen short of the amount of 150 days prescribed for the tour of such officers. In some cases special reasons are assigned for shortcomings, but the Deputy Inspectors of Mymensingh and Julpigoree fail to offer sufficient explanation for their neglect in this part of their duty, and they should be warned that a repetition of this year's inactivity will be severely dealt with. The average number of days spent on tour by Deputy Inspectors in all Bengal is 165 days against 156 in the preceding year. The number of schools visited has increased in every division except Orissa. There appears to be a tendency in some circles on the part of Deputy Inspectors to neglect the superintendence of primary schools. The steps taken by Dr. Martin and Mr. Pope to check this evil have the entire approbation of the Lieutenant-Governor, and should the abuse be found to exist in other circles, the Director should see that measures of a similar tendency are adopted to counteract it. In the activity of Sub-Inspectors there is a decided improvement on last year's figures. The average length of tour for the whole of Bengal is 215 days against 204 in the previous year. It must, however, be remembered, and the Lieutenant-Governor is glad to observe that the Circle Inspectors seem to be aware of the fact, that the

more prolonged absence from head-quarters of an inspecting officer is not, taken by itself, a satisfactory proof of efficiency in the discharge of his duties. The number of schools visited *in situ* is, perhaps, a better test; but there is reason to fear that, in spite of the remarks in last year's Resolution, much of the visiting has been of a perfunctory character.

With regard to the comparative merits of chief gurus and inspecting pundits as a controlling agency, the Lieutenant-Governor sees no reason for reversing his judgment on the opinion of Mr. Croft, which was approved in last year's report. The present Officiating Director is right in supposing that, subject to prescribed rules, the appointment and superintendence of the subordinate inspecting officers will be under the Local Self-Government scheme in the hands of District Boards. The larger powers and consequent higher sense of responsibility of these bodies will, it is hoped, make impossible, in their case, the negligent attitude, with regard to educational progress, which the officers of the Department attribute to District Educational Committees.

7. *University Education.*—The number of Government colleges is 13, and of aided colleges five, as in the preceding year. Another unaided college has been added to the six existing in 1883-84, by the affiliation up to the F. A. standard of the Jaggannath College, Dacca. There is a decrease of 265 students in Government colleges and of 47 in Arts colleges generally. It is represented that this decrease is to a great extent nominal, and may be explained by the fact that in many cases the names of those students who left their colleges at the end of December 1884, after completing their two years' course, were not retained on the books. There is an increase of 164 pupils in aided and of 54 in unaided colleges, which still continue to advance. The General Assembly's Institution is said to be regaining its old popularity.

The average cost to Government of each student in Government colleges has risen from Rs. 234 to Rs. 269, the total average cost in 1884-85 being Rs. 366. This increase is due principally to higher rates of salary and to a falling off in the fees received in the last quarter of the year. In aided colleges the average cost to the State of each student has risen from Rs. 27 to Rs. 30, and the total average cost of each student was Rs. 290. It was a recommendation of the Education Commission that some of the Government colleges should, on convenient opportunities, be handed over to local bodies. Action on this recommendation has not yet been taken; but it is now time that the matter should be seriously considered with a view to some appropriate practical action being taken.

University Examinations.—The usual examinations were not held during the year with which the report deals. But in order to relieve unsuccessful students from the hardship of having to take up an entirely new course in the examination of 1885, the University held supplementary examinations in May 1884. The result increased very much the percentage of passed candidates in the F. A. Examination of 1883 and the B. A. Examination of 1884. The percentage of passed candidates in the F. A. Examination was raised to 78 per cent. for Government, to 64 per cent. for aided, and to 63 per cent. for unaided colleges. The percentage for the B. A. Examination now stands at 76 per cent. for Government, 75 per cent. for aided, and 70 per cent. for unaided colleges, and the noticeable fact that the Government colleges were run close in this examination by the aided colleges is another argument, if any were wanted, in favour of the view that the Government of Bengal should begin to retire from the direction of higher education. The satisfactory substitute of successful private enterprise is evidently available to take the place of Government.

Returning to the examinations, it is obvious that the supplementary examinations must have been very lenient, or that the students must have been stimulated to greater exertions by the consciousness that, if they failed in them, it would be useless for them to attempt an entirely novel set of subjects. Possibly both causes may have operated. It is worthy of note that while, in the F. A. Examination of 1883, the Free Church Normal School passed three out of four candidates, the fourth candidate appeared at the supplementary examination of May 1884 and passed.

8. *Secondary Education.*—The following statement shows the number of high English schools for native boys, and of pupils attending them, during the last two years :—

The number of Government schools is 51, as in the previous year, the Patna City School, which was hitherto treated as part of the Collegiate School, having been recognized as a separate institution, and the Bhootea Boarding School at Darjeeling having been transferred to the class of special schools. Two schools have been returned as maintained by Municipal Boards, namely those at Santipore and Burdwan, while the Feringhi-Bazar School at Chittagong has been omitted on the ground that it receives a grant from Government. Aided schools have advanced from 118 to 123, and unaided schools have declined from 64 to 63. There is thus a total gain of four schools. The loss of pupils is accounted for by the fact that, owing to the University and school examinations having been postponed to April, March is now the month of minimum numerical strength. The postponement of the Entrance Examination has rendered it impossible for the Officiating Director to submit the usual comparison of the merits of high schools; but there seems every reason to suppose that the usual rate of progress has been maintained in those institutions. The liberality of Baboo Raj Mohun Roy Chowdury in providing a new building for the Government High School at Taki has been already favourably noticed. The Beerbhoom school, which of late years has shown exceedingly good results at the Entrance Examination, was in November 1884 visited by His Honor the Lieutenant-Governor, who recorded a favourable opinion on its working. The Uttarpara school appears to maintain its high character.

9. The following table gives the comparative statistics of middle English schools for native boys for the last two years—

The number of Government schools was seven, as in the previous year. These were the Colinga Branch School for Mahomedans, attached to the Calcutta Madrassa, the Model School attached to the Calcutta Normal School, the Rungamati and Bandarban Boarding Schools in the Chittagong Hill Tracts, the Darjeeling Zillah School, the Model School attached to the Patna Normal School, and the Cuttack Model School. The single municipal school is the Model School at Bogra. Aided schools have risen from 521 to 532, and their pupils from 34,364 to 37,215. The Presidency Division has gained seven, Burdwan six, Rajshahye one, and Dacca five, while Patna has lost one, and Bhagulpore seven schools. Unaided schools show an advance from 124 to 155 schools, of which the Presidency Division has gained nine, Burdwan twelve, Rajshahye one, Dacca two, Chittagong two, Bhagulpore six, Orissa four, and the Town of Calcutta one; while Patna has lost five and Chota Nagpore one. Many of these schools have been started in the expectation of obtaining a Government grant-in-aid, and it is hoped that it may be possible to transfer some of them to the aided list during the coming year. For the Middle English Scholarship Examination, the standard of which is that of the Middle Vernacular Examination, with English added as a language only, 417 schools

sent up 1,291 candidates, of whom 623 were successful. Adding to these 26 boys who passed the examination from vernacular schools, we have a total of 649 against 481 in the year before The Presidency and Burdwan Divisions sent up 627, or 48 per cent of the whole number of candidates at this examination, and passed 58 per cent. of the whole number of successful candidates. The Bhagulpore and Patna Divisions together only contributed 20 successful candidates.

10. The comparative statistics of middle vernacular schools are given below :—

Unaided	76	4,001	102	6,321
Total ...	1,108	61,702	1,140	66,011

The decrease of two in departmental schools is accounted for by the fact that two schools in the Burdwan Division, one in Rajshahye, and one in Bhagulpore have been transferred to Municipal Boards, while two new schools have been returned from the Patna Division. Schools maintained by Municipal Boards have risen from five to nine, and there is an increase of four aided schools. While in the preceding year unaided schools declined from 84 to 76, they rose in the year under review from 76 to 102. As in the case of middle English schools, a large proportion of them have been started in the hope of obtaining a Government grant. The financial pressure has made it impossible to meet the wishes of their projectors during the present year. The Officiating Director observes that the grant-in-aid budget may be relieved by ceasing to aid primary schools from it. This will set free a sum which may be more legitimately employed in aiding secondary schools. It is satisfactory to observe that the policy advocated by Mr. Croft, and accepted by Government, of planting Government vernacular schools in advanced rather than backward localities, is beginning to bear fruit. Efforts are being made in many localities to add English classes to them, and it is expected that their position will be so much improved that they will soon recover their original character of model schools. The Middle Vernacular Scholarship Examination was attended by 4,482 candidates from 998 schools. Of these, 2,379 were successful, in addition to 736 candidates passing from middle English schools, or from the vernacular departments of high schools. The total number of successful candidates was 3,115 against 2,031 in the preceding year. The Dacca Division sent up and passed more candidates at this examination than any other division.

GRAND TOTAL ...	63,716	1,164,709	65,580	1,222,580

There is thus a total gain of 1,864 schools and 57,871 pupils against an increase of 1,165 schools and 69,798 pupils in the preceding year. The rate of progress, while nearly the same as that of 1883-84, differs altogether from the rapid increase observable in preceding years. It was explained in last year's report that, in obedience to the Government Resolution on the Report for 1882-83, the search for indigenous schools beyond the range of effective supervision had been abandoned, and the efforts of departmental officers had been directed towards the consolidation and improvement of existing schools. The figures show that, while schools have increased by 2·9 per cent., their pupils have increased by 4·9 per cent. The obvious conclusion is that existing schools have been better attended. In the case of some districts the figures returned as representing the numbers of primary schools and pupils appear to be of doubtful value. Mention is made of "bogus" and "ephemeral" schools coming into existence at the time of reward examinations and then disappearing, and it is also stated that the same pupils have appeared at more than one centre of examination. In the Chittagong Division especially it would seem that figures returned for former years are untrustworthy, but reports for some other districts also show that the tale of primary schools as returned by the Sub-Inspectors is regarded by the District Magistrates with suspicion.

The total Government expenditure on aided primary schools for boys and girls was Rs. 7,25,430 against Rs. 21,97,067 contributed from local sources, including municipal grants. The Lieutenant-Governor is pleased to observe that the past year's operations have added about 256 schools to the upper primary class, and quite accepts Mr. Croft's view that efforts should be made to increase the number of schools of this grade. The Officiating Director states that the question of substituting mensuration for the first book of Euclid formed the subject of departmental discussion during the year, and gives it as his opinion that the two subjects should be taught together, on the ground that mensuration cannot be effectively taught without some knowledge of Geometry. This recommendation has the approval of the Lieutenant-Governor, and steps should be taken to carry it into effect. The systems of examination of patshalas *in situ* for rewards, and of simultaneous examination of patshalas which have been introduced into some districts, appear to have been attended with good results. They should be extended where practicable. The system of payment of rewards to gurus by means of postal money orders has also proved satisfactory in those districts where it has been adopted. The Officiating Director gives it as his opinion that the commission charged by the Postal Department should not be deducted from the amount of reward earned by the gurus, but should be paid out of the district primary allotment. The question of the best method of paying rewards to teachers will be a matter for the District Boards appointed under the Local Self-Government Act to settle in consultation with the departmental authorities. Though approving generally of the system of payment by money orders, the Lieutenant-Governor does not think that it should be enforced at present in all districts. The proposal to discontinue aiding primary schools from the Grant-in-aid Fund is a good one, and should be gradually carried out.

12. *Training Schools.*—The number of these institutions is 16, as it was last year, the abolition of the Chaibassa Training School having been compensated by the establishment of the new training class at the Saidabad Model School in Murshidabad. The Ghatsila training class is now represented by the Haldipukur Training School. The Officiating Director calls attention to a defect in our training-school system, which has been observed by Mr. Metcalfe in Orissa, and also by educational officers in the Dacca Circle. It was brought prominently to the Lieutenant-Governor's notice on his visit to the training school at Balasore. It is complained that the gurus trained in our normal schools, after completing their course, sever all connection with their patshalas, and seek some more attractive profession than that of teaching. The suggestion of Dr. Martin that students of training schools should bind themselves by agreement to serve in the Department for three years after leaving the school, failing which they should refund to the Department all the money which they had received in the form of stipends while reading in the school, to which the Officiating Director gives approval, appears to have been considered by the Educational authorities

of these Provinces some time ago, and finally abandoned as impracticable. The Lieutenant-Governor is decidedly of opinion that the present is not the occasion for reviving it. The whole subject of normal schools is now under the Lieutenant-Governor's consideration in connection with the recommendations of the Education Commission.

Law Schools.—The number of Government law schools has fallen from seven to six, owing to the abolition of the Presidency College classes. The total number of law students on the 31st of March has decreased from 664 to 649. But these figures are deceptive, as the average roll number has risen from 522 to 765.

Medical Schools.—The number of students reading in medical schools has increased considerably, the number on the rolls of these institutions having been 804 on the 31st of March against 722 in the preceding year, and the monthly roll number 847 against 741. This increase is not restricted to the Calcutta Medical College, which is affiliated to the University. There is also an increase in the Government vernacular medical schools at Sealdah, Patna, Dacca, and Cuttack. A second homœopathic school has been started at Dacca. Sixteen candidates from the Calcutta Medical College passed the first M. B. and L. M. S. Examinations of the University of Calcutta, three candidates passed the second L. M. S. Examination, and eleven qualified for the degree of Bachelor of Medicine. Two native *dhais* and eight pupil-nurses passed in midwifery. Thirty-one students from the Dacca Medical School, 16 from the Temple Medical School, Bankipore, and 11 from the Cuttack Medical School obtained their diplomas in the final examination.

Engineering.—The number of students in the Seebpore College was 149 on the 31st March 1885 against 166 in the previous year, 42 being in the Engineering and 107 in the Apprentice Department. Five students from the Engineering Department passed the first examination in Engineering in August last. Eight students passed the final examination of the Apprentice Department. One sub-overseer's and one overseer's certificate were granted to students on leaving the College. The Superintendent of the Workshops remarks that a great many of the native students find manual labour distasteful, and endeavour to avoid it With the view of checking this tendency, he has drawn up rules for annual examinations, which, it is hoped, will convert the idlers into earnest workers, or effectually dispose of them.

Survey and Industrial Schools.—There is an apparent decrease in the Dacca Survey School, which is attributed to the opening of the Session having been postponed to the month of June. Great attention has been paid in the school to practical work. The numerical strength of the Patna Survey School is the same as last year, while the number of students in the Cuttack Survey School has fallen from 66 to 55, owing, as is supposed by the head-master, to the difficulty of finding suitable appointments for passed students. It is anticipated that the stoppage of railway operations will interfere, temporarily at any rate, with the prospects of the students of these schools; but there does not seem to be any reason to suppose that the course taught in them is not sufficiently practical. The Principal of the Patna Survey School would admit no students ignorant of English; the Lieutenat-Governor does not think it desirable to introduce this restriction.

The Officiating Director observes that the starting of the Mohisadal Industrial School, under the auspices of the zemindars of Mohisadal, is one of the most interesting and hopeful facts with regard to industrial education. The schools supported by the East Indian Railway Company continue to flourish.

The subject of technical and industrial schools has come under reconsideration since the close of the year.

School of Art.—This institution continues to maintain its high character. The number of students on its rolls has risen from 139 to 157. The Committee of the Exhibition to be held in London next year have sought the assistance of the school for a collection of work illustrating the various stages of instruction in the school, *repoussé* work, wood-carving, designs for Monghyr slate-works, and designs for pottery. It is expected that the school will acquit itself creditably in all the work it has undertaken. The Lieutenant-Governor has learnt with interest and satisfaction that this school has produced specimens

of engraved and chased brass ware, copied from exhibits in the Calcutta International Exhibition and the Art Museum in Chowringhee. Such an industry was not before known in Bengal.

13. *Female Education.*—The following table shows the advance that has been made in female education during the year:—

	1883-84.		1884-85.

Girls in boys' schools	.....	33,646	.....	35,749
Grand Total ...	1,785	65,813	2,309	76,546

It appears from this table that, taking into account the girls attending boys' schools, and excluding 776 little boys attending girls' schools, the total of girls under instruction has risen from 64,883 to 75,770. The number of girls' schools has risen from 1,785 to 2,309, and of their pupils from 32,167 to 40,797. The number of girls reading in boys' schools has increased from 33,646 to 35,749. The total cost of the 2,039 schools was Rs. 2,68,072, of which Government contributed Rs. 1,63,268; the expenditure from municipal funds was Rs. 6,504, from fees Rs. 20,785, and from all other sources, mainly subscriptions and donations, Rs. 1,37,515. The two Government schools for girls are the Bethune School in Calcutta and the Eden Female School at Dacca. The Bethune School had on its rolls 130 pupils, of whom six were in the College Department, against 117 in the year before, of whom five were in the College Department. The numerical strength of the Eden School at Dacca, which in the year 1883-84 fell from 191 to 157, has now fallen to 62. This decrease is ascribed to the levying of fees throughout the school, and the reduction of expenditure upon gharry hire, owing to the falling off of the subscriptions from which it was paid. It is explained that the fall in the average daily attendance is only from 69 to 52, and that, while the attendance was only 44 of the roll number in 1883-84, in the year under report it was 84 per cent.; and it is surmised that the school will be a gainer by the loss of a number of girls whose attendance was so irregular as to make them a source of injury to their fellow-students. The most notable incident in connection with female education during the year was the donation of a lakh and a half of rupees by the Maharani Surnamayi of Cossimbazar for the foundation of a hostel for female medical students, the first stone of which was laid by the Countess of Dufferin in March last.

Mrs. Wheeler, Inspectress of Schools, reports an improvement in the examination results of pupils reading in zenanas, and in schools for infants in Calcutta and its neighbourhood. Out of 3,702 pupils examined by her standards, 680 passed, 1,335 were mere infants, and 1,687 were rejected. The pupils of the Church of Scotland Zenana Mission appear to have been particularly successful at these examinations.

Outside Calcutta, girls' schools are multiplying fast. The increase is shared by all the divisions except Chittagong. The decrease in the Chittagong Division is partly accounted for by the exclusion from the returns of schools in which boys and girls learn the Koran together, an exclusion which appears to require explanation. Remark has been above made on the returns of primary education in the Chittagong Division. The falling off in the district of Tipperah is attributed to the same cause that operated towards the reduction of primary schools for boys, viz. the exclusion of patshalas, not six months in existence, from the central examination for rewards; and to the fact that, whereas in previous years girls were examined in their own schools, they were required this year to attend the central examinations, and this parents did not generally permit. There is a considerable increase in the number of girls under instruction in Patna and Bhagulpore, Monghyr being far in advance of the other districts in the latter division.

The advance in the Chota Nagpore Division is shared by all the districts, but is most marked in Singbhoom. This is due to the independent character of the Kol women, and also to the great influence which Major Garbett, the Deputy Commissioner, has with the people of the district, and to the warm interest that he takes in education. It is important to recognise that much has been done for female education by local associations, among which the Uttarpara Hitakari Sabha and the Backergunge Hitaishini Sabha deserve special mention. The former society has recently revised its standards so as to bring them into conformity with those of the department.

14. *European and Eurasian Education.*—The following table gives the number of Government aided and unaided schools, and the number of scholars in them, on the 31st of March last:—

Class.	Number of schools on the 31st March		Number of scholars in them on the 31st March	
	1884.	1885.	1884.	1885.
Government	1	1	97	92
Aided	49	53	4,945	5,053
Unaided	13	15	913	1,204
Total ...	63	69	5,955	6,409

The Government expenditure has increased under every head. The expenditure on building grants is at present abnormally high; but when the buildings now in course of erection are completed, it is anticipated that it will not be necessary to make large grants under this head for some time to come.

The year under report completes the period of two years during which the Code was declared to be on probation. A report on the whole period of probation was submitted by Mr. Nash in March last, and formed a subject of discussion at the Conference of Inspectors held at Nynee Tal in April and May. The Conference submitted their report on the 11th of May, and the Code was finally sanctioned by the Government of India on the 9th of June 1885. The scale of grants adopted in the Code, as finally approved by Government, is lower both for attendance and instruction than the scale originally proposed. Calculated by the old scale, the total earnings of all the schools on the elementary subjects alone has increased from Rs. 23,920 to Rs. 26,139; the average amount of grant for elementary subjects earned by each scholar who was eligible for instruction grants, has risen from Rs. 10-4-8 to Rs. 11-1-0; and the average amount earned by each scholar on the schedules from Rs 7-14-7 to Rs. 8-6 3. On the whole, it appears that the result of the introduction of the Code system has been a general improvement in the efficiency of European schools. The Lieutenant-Governor is specially gratified to observe that the scholarship examinations have had an admirable effect upon European education, and that the popularity of the examinations does not depend upon the pecuniary reward offered by Government, as is evidenced by the fact that both in 1883 and 1884 there have been more candidates for certificates than for scholarships. These encouraging results are in a great measure due to the zeal and efficiency of Mr. Nash, to whom the thanks of Government have already been given for his services in connection with European education.

15. *Mahomedan Education* – The following statement gives the number and percentage of Mahomedans in different classes of Educational institutions:—

Total ...	27,339	11,556	42·2
GRAND TOTAL ...	1,470,180	420,768	28·6

The advance made last year in Mahomedan education appears to have been sustained. The number of Mahomedans in schools and colleges of all kinds has risen from 392,003 to 420,768 The percentage is nearly the same as last year. The total number of Mahomedans in Arts Colleges has fallen from 132 to 129, but the percentage remains the same. There is a slight falling off in high English schools and in middle English schools as regards percentage, though the total number of pupils has slightly increased. Middle vernacular schools show a large number of Mahomedan pupils, though the percentage remains the same. There is a satisfactory increase in upper and lower primary schools. The only division in which the number of Mahomedan pupils has fallen off is Chittagong.

The Officiating Director estimates the surplus of the Mohsin Fund upon figures furnished by the Accountant-General at less than Rs. 4,000. He suggests that the surplus should now be spent in the way proposed by Mr. Croft, viz. in extending the Mohsin contributions for two thirds fees to approved schools under private management. This recommendation will be separately dealt with The madrassas maintained from the Mohsin endowment are the Hooghly, Dacca, and Chittagong Madrassas, and the Oriental Department of the Rajshahye College The Calcutta Madrassa and the Moorshedabad Nawab's Madrassa are maintained from Provincial revenues. In all the madrassas under Government management, the number of pupils has fallen from 1,191 to 1,057. The decrease is supposed to be only apparent, being due to the change in the date of the University examinations. The number on the rolls of the Calcutta Madrassa and its branch school on the 31st March 1885 was 1,100 as against 1,253 on the same date in 1884. In the Anglo-Persian Department the numbers have fallen from 493 to 406, but the average roll number was 425 against 413 in the preceding year. The Colinga Branch School had 106 students on its rolls on the 31st March 1885, against 485 on the same date in the preceding year. In the Arabic Department, which is not affected by the proceedings of the University, there is an increase from 255 to 336. The total expenditure of the Calcutta Madrassa and the Colinga Branch School has risen from Rs. 39,514 to Rs 49,540. The expenditure on the College Department was Rs 17,152. At Chittagong a branch madrassa, called the Mir Ahya Madrassa, was established in August 1884. Some of the students in the elementary classes of the Chittagong Madrassa have left to join the new institution. It is believed that the Chittagong Madrassa will gain by being relieved of this elementary work The central examination of the Madrassas not having been held this year, no account has been given of it in the report under review.

The subject of providing special facilities for the education of Mahomedans has occupied the Lieutenant-Governor's attention in connection with the recommendations of the Education Commission and in connection with the Memorial addressed to the Government of India by the National Mahomedan Association; and under orders contained in a recent Resolution, a Committee has been appointed to enquire into and report on the present management of Mahomedan educational endowments. With a decrease of the financial pressure, it is hoped that funds may be made available for the special encouragement of Mahomedan education.

16. *Aboriginal and backward races.*—The total number of aboriginal pupils under instruction has risen from 28,259 to 33,151. Of these, 13,599 are

found in the Chota Nagpore and 9,533 in the Bhagulpore Division. The educational work in the Chota Nagpore Division is principally in the hands of missionaries. There are no separate schools for aborigines, to the exclusion of Hindus and Mahomedans; but in the interior of the districts of Singbhoom and Lohardugga, the schools are attended solely by children belonging to aboriginal tribes. It appears that the lower we descend in the grade of schools, the more numerous are children of this class. The aborigines of the Bhagulpore Division are only 7·8 per cent. of the population, but aboriginal pupils are 9·6 per cent. of the total number. This is ascribed to the fact that the aborigines have no prejudice against female education. A scheme of education for the Sonthals has been introduced into the Damin-i-Koh, and special rules have been laid down to prevent any collision with the missionary schools. Under this scheme 82 new schools with 1,931 Sonthal pupils have been established.

17. *Indigenous Education.*—Under this head are included tols in which Sanskrit is taught, maktabs in which Arabic and Persian are taught, and pathsalas and other schools that do not conform to the departmental standard. The tols have lately been much encouraged by the institution of the Sanskrit Titles Examination, and great efforts are being made in the same direction by the Sarasvat Samaj of Dacca. This is an independent association for improving the study of Sanskrit by holding examinations and conferring titles. It is satisfactory to observe that its finances are declared to be in a flourishing condition. In the Rajshahye Division some of the maktabs appear to merit the title of advanced institutions. In Chota Nagpore institutions of this kind appear to be supported by rich patrons. It is clear that throughout Bengal these schools have still considerable hold on the Mahomedan population. It is much to be regretted that the information furnished with regard to tols and maktabs generally by the Education Department is so very meagre. This is no doubt due in some cases to the unwillingness of the teachers to furnish returns; but it is to be feared that the absence of information with regard to those institutions is mainly to be ascribed to the fact that they are looked upon with disfavour by the subordinate officers of the department.

18. *School-books.*—The Central Text-Book Committee has been enlarged during the year under review, so that it now consists of 15 gentlemen, of whom six are members of the Bengal Educational Service, two belong to other branches of the public service, four are Government pensioners, and three are professional gentlemen unconnected with Government. Down to the 15th September 1885, 653 works were received in the Committee's office from authors and publishers, of which 608 have been already more or less fully reported on. The Lieutenant-Governor has much pleasure in acknowledging the services rendered to educational literature by the President of the Committee, Dr. Rajendra Lala Mittra, C.I.E., Rai Bahadoor, and his colleagues. The Behar Text-Book Committee reports the publication during the year of 44 works, of which 19 were reprints and 25 first publications. Some are printed in the new Kaithi type, but the great majority are in the Devanagri character. The Orissa Text-Book Committee has been reorganized on a wider basis, the number of its members having been increased from three to eight. It now contains three non-official gentlemen. Six Uriya text-books have been published during the year, of which five have been included in the approved list.

19. The Lieutenant-Governor desires to thank the Officiating Director, Mr. Tawney, for a full and instructive report, and for the energy and ability which have marked his management of this most important department of the public service. The thanks of Government are also due to the Inspectors and to the Professors of Colleges, whose zealous discharge of their onerous duties has so much contributed to the good results of the year.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE COLONIAL EMIGRATION REPORT FOR THE YEAR 1884-85.

GENERAL DEPARTMENT—COLONIAL EMIGRATION.

Calcutta, the 26th December 1885.

RESOLUTION.

READ—

The Report by the Protector of Emigrants on Emigration from the Port of Calcutta to British and Foreign Colonies during 1884-85.

The report is submitted by Dr. Grant, who held the office of Protector of Emigrants throughout the year.

Act VII of 1871 and the rules framed thereunder continued during the year to regulate emigration to the colonies. Act XXI of 1883, which received the assent of the Governor-General in Council on the 18th December 1883, has not yet come into force pending the final approval of the rules which have been framed for its administration. These draft rules were published for general information in the *Gazette of India* of the 10th January 1885, and have since been under consideration. The Lieutenant-Governor therefore reserves notice of the changes which will be effected by the new law.

2. Emigration agencies for ten colonies were at work during the year, *viz.*, for eight British Colonies—Demerara, Natal, Trinidad, Jamaica, St. Lucia, Grenada, Fiji and Mauritius; for one Dutch Colony—Surinam; and for one French Colony—Guadeloupe. To seven of these colonies their agencies had despatched emigrants during the preceding year, but for Jamaica, St. Lucia, and Grenada no emigrants had been recruited during 1883-84. The requisitions for emigrants and the number despatched in the last two years were as follows:—

Colonies importing Indian Labourers.	1883-84.				1884-85.				Remarks.
	Number of statute adult labourers.				Number of statute adult labourers.

Total ..	17,094	10,260	145	6,979	18,639	13,867½	2,423½	5,194	

The number of emigrants despatched to all the colonies, as usual, fell short of the total requisitions, though it more nearly approximated to the requisitions than has been the case of recent years, as the following statement shows. The figures represent statute adults.

	No. applied for.	No. despatched.
1880-81	13,025	11,894
1881-82	12,314	7,946
1882-83	16,502	8,352
1883-84	17,094	10,260
1884-85	18,639	13,867

Towards the end of the year, on account of a decline in the price of sugar requisitions of some of the colonies were cancelled. Had this not been the case, it appears likely that the supply of emigrants would have been equal to the original demands. The terms offered by the various colonies to emigrants remained the same as in previous years. The requisitions from Demerara continue to be larger than those from any other colony, and the emigrants despatched to this colony during the year made up over 38 per cent. of the whole number of emigrants who embarked. Fiji, Trinidad, and Mauritius, which came next in order, taking 15 to 13 per cent. of the whole number.

3 Eight hundred and thirty-one recruiters were licensed for the several agencies during the year, as against 757 recruiters licensed in the preceding year. Thirteen licenses were cancelled for misconduct on the part of the recruiters. Of these, six licenses were withdrawn in connection with cases of abduction of married women from their homes, and three licenses were cancelled in connection with a case of registration of a woman by personation. The percentage of cancellations is not large, but it is larger than that of the preceding year.

4. The total number of emigrants registered for the colonies during the year was 23,191, or, omitting 1,446 re-registrations in the 24-Pergunnahs, 21,745; and distributed according to the provinces where they were registered, the details are these—

Bengal and Behar	...	...	...	..	12,775
North-West Provinces	.	...	...	...	6,835
Oudh	...	...	...	...	1,626
Punjab	...	...	...	...	283
Central Provinces	...	...	...	...	39
Madras	...	...	...	...	51
Bombay	...	...	...	...	136
			Total	...	21,745

The noticeable feature in this statement is the largely increased number of registrations in Bengal and Behar, which for the first time exceed registrations in the North-West Provinces. Statement I appended to the Report shows that 8,531 emigrants were registered in the Patna Division. As to the causes which favoured increased emigration from Bengal and Behar, Dr. Grant makes the following remarks:—

"The manifestly greater activity of emigration from the Lower Provinces, as compared with that from the North-West and Oudh, is attributable to the comparatively high price of food-grains, the result of persistent drought that prevailed during the year throughout the area from which the largest number of labourers was drawn. For while the crops in Bengal and Behar were suffering more or less from want of rain that led to scarcity, the local markets of the North-Western Provinces and Oudh appear to have been comparatively well stocked. On the other hand, as regards the recruiters themselves, the presence of facilities for obtaining suitable labour so much nearer the port of embarkation than the more distant Upper Provinces, and of economising transit, must necessarily have led them to make the best of their opportunities by concentrating their operations chiefly in Behar and the districts in its vicinity that were most readily accessible by rail. Recruitment for the colonies was carried on most freely in the months of July, August, September, and October; and it was during those months particularly that the poorest labouring classes, who ordinarily emigrate, were feeling the full effects of the high prices of food-grains in Patna, Gya, Shahabad, Monghyr and neighbouring localities. Indeed, early in August, I received a communication from Mr. Grierson, the Officiating Magistrate of Patna, in which he intimated that, "owing to want of rain, the crops in this district have largely failed, and a considerable distress is anticipated among the labouring classes. They are enlisting at present in considerable numbers for the colonies, and I would suggest that you should draw the attention of the various Emigration Agents to the fact that Patna district is likely to prove a fertile field." Accordingly, I caused the information furnished by Mr. Grierson to be circulated amongst all the Emigration Agents for the colonies and the contractors under the Inland Emigration Act."

Only one man in 1,765, however, went to the colonies from the districts of the Patna Division, and even in Gya, where recruiters appear to have established their strongest connection, and where the number of emigrants was greatest, the percentage was only 1 in every 567 of the population. Taking the five districts in which colonial recruiters registered most emigrants, viz. Gya, the 24-Pergunnahs, Shahabad, Patna, and Burdwan, Dr. Grant points out that the number of emigrants registered for Assam in these districts was 4,197, as compared with 9,529 persons registered for the colonies. The former number, however, leaves out of account unregistered emigrants to Assam. Labour in a distant colony and the sea voyage thereto are said to have fewer fears for the Behari than for the Bengali.

5. Out of 23,191 emigrants registered, 22,921 were admitted into the Calcutta depôts; of the remaining 252 persons, nine died and 142 deserted in the interior, 42 were detained in the mofussil depôts, and 59 were discharged by the agencies on account of unfitness, unwillingness to emigrate, and claims by relatives, and the rest were unaccounted for. The total percentage of

losses before arrival at the Calcutta depôts was, therefore, 1·08, as compared with 2·32 per cent. lost in the preceding year and 5·99 lost in 1882-83.

6. Of the 22,921* persons admitted into the Calcutta depôts and 1,823 persons remaining in the depôts at the end of the preceding year—total 24,344 persons—264 died, 979 deserted, and 3,730 were rejected or discharged by the recruiting agencies for one cause or another. Of the remainder, 17,548 were despatched to the colonies, of whom 10,546 were men, 4,395 women, (or 41·5 women for every 100 men), and the rest children. (The numerical total differs from the number of statute adults shown in paragraph 2 above). The year was a very unhealthy one in the St. Lucia, Trinidad, and Jamaica depôts. In the two first-named depôts an epidemic of measles, with its after-effects, carried off a large number of persons, especially children, and in the Trinidad depôt many emigrants were received who had suffered privation in the hard times prevailing in their native districts, and who were, therefore, the less able to withstand sickness brought into the depôt by some of their fellow emigrants. The sick were treated with consideration by the agencies.

* Including, however, 1,446 persons twice counted as transferred from one agency to another, and re-registered.

The average detention of the emigrants in depôt did not exceed a month, except in the Surinam depôt. The emigrants were carried to the colonies in 33 vessels, viz. 28 sailing vessels and five steamers. Papers relating to the voyages of 28 of these vessels had been received by Dr. Grant up to the date of submission of his report. Twenty-one of the 28 voyages were fairly healthy, and seven ships are named as having made unhealthy voyages. Of the latter, the voyage of the *John Davie* to Demerara in September 1884 to February 1885, in which 22 emigrants (out of 459 embarked) died of cholera, and 14 of other diseases, was the most unfortunate, as it was the longest voyage made. The cause of the outbreak of cholera in this voyage is attributed by the medical officer of the ship to contaminated water, but Dr. Grant states that the suspected water had been supplied from the Calcutta hydrants, and that on application of the usual chemical tests before embarkation, it had been pronounced to be free from impurity.

7. The return emigrants who arrived in Calcutta during the year numbered 4,648, or 771 more than in the preceding year. They brought with them savings known to amount to Rs. 9,66,845. The savings brought back by the Trinidad emigrants amounted to Rs. 357 per head, and the smallest average savings brought back from a British Colony amounted (in the case of the St. Vincent emigrants) to Rs. 55-12 per head. From Surinam the return emigrants brought back Rs. 218-9 per head, but from Guadeloupe the 234 return emigrants are said to have brought back between them only Rs. 313 or 12 annas 6 pies per head.

8. The office of Protector of Emigrants was efficiently discharged by Dr. Grant during the year.

Calcutta, *the 28th December* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 25TH DECEMBER 1885.

As was stated in the previous weekly report, pressure had fallen rapidly over Northern and Central India on the 17th and 18th of the month, the fall in many instances in North-Western India on the 17th being greater than a tenth of an inch, while at Peshawar on the 18th it equalled a sixth of an inch. This rapid decrease of pressure over Northern India was as usual attended with rain, the rainfall being light in the North-West Provinces, and heavy in the Central Provinces and in parts of the Punjab. At the close of the previous week the rainfall had extended to a few stations in Behar and North Bengal, but on the 19th rainfall became general over the whole of Behar, Chutia Nagpur and North Bengal, while a few showers were reported from Orissa and South-West Bengal. The area of disturbance again extended in a southerly direction on the 20th, and moderate to heavy rain was reported over the whole of Orissa and South-West Bengal, while light rain fell in East Bengal. On this day the rainfall almost ceased in Behar and North Bengal, though rather heavy rain continued to fall in Chutia Nagpur. On the following day the disturbed conditions over Bengal became less pronounced, and the rainfall reported consisted of a few isolated showers, which fell principally in Orissa, East Bengal, and Chutia Nagpur, but from the 22nd rainfall had practically entirely ceased, and for the remainder of the week the whole province was rainless. A fairly steady northerly wind current has continued to blow over the province for the greater part of the week; the northerly winds commenced to strengthen in the middle of the week, and for the last four days the weather conditions have been typical of the north-east monsoon. The skies which were heavily clouded, and in many cases entirely overcast during the first two or three days of the week, cleared rapidly with the disappearance of the disturbed conditions, and at the close of the week almost cloudless skies prevailed over the whole province.

Pressure—Was during the previous week distinctly below the normal, though the defect was a little irregularly distributed. The oscillations of pressure during the present week were for the first three days, during the disturbed conditions above described, decidedly variable and irregular, but with their disappearance, pressure commenced to increase fairly steadily, and the mean pressure for the whole province for the week was only 0·022″ below the normal. Again this defect has been rather irregularly distributed, the largest defects being reported from Gya and Cuttack, while in East and North Bengal pressure has been almost normal.

Temperature—As described in the previous weekly report, had been largely above the normal over almost the whole province, but with the occurrence of the general rainfall at the commencement of the present week, and with the subsequent steady northerly wind current, temperature fell very rapidly over the whole province. The rapid fall of temperature was most noticeable in the night or minimum temperatures, and it was most rapid from the 21st to the 23rd of the month. The extreme rapidity of the fall may be judged from the fact that at Julpigoree, from the night of the 22nd to that of the 23rd, temperature fell 12°, at Dinagepur for the same interval, but from the 21st to the 22nd, the fall was 11°, at Bhagulpur it was 10° and at Rungpur it was 8°. For the two nights, from the 21st to the 23rd, the fall of the minimum temperatures averaged nearly 10° over the whole province, while at certain stations, such as Comilla, the fall was nearly 15°. The mean temperature for the week has been slightly below the normal over the greater part of the province, the exceptions being in Orissa with an excess of 1°, South-West Bengal with an excess of 0·8°, and South Behar with an excess of 0·4°, while all other districts show defects varying from 0·5° up to 2°. The defect has been principally in the day or maximum temperature, as will be seen from the following table, where the mean maximum and minimum temperatures for the week at eight selected stations are compared with the normal temperatures for the same period.

For the week ending 25th December 1885.

Names of Stations.	Maximum Day Temperature.			Minimum Night Temperature.		
	Normal averages for week.	Actual averages for week.	Difference.	Normal averages for week.	Actual averages for week.	Difference.
Cuttack	82·0	79·0	—3·0	56·8	61·7	+4·9
Calcutta (Alipore) ...	71·8	74·0	—0·8	53·2	57·6	+4·4
Burdwan	76·5	75·2	—1·3	53 1	57 5	+4·4
Jessore	77·2	73·3	—3 9	52·1	56 0	+3 9
Dacca	77·4	74·2	—3·2	55·1	57·5	+2·4
Patna (Bankipore) ...	72·9	66·8	—6·1	48·1	52·4	+4·3
Purneah	75·6	65·8	—9·8	47·5	[illegible]	[illegible]
Hazaribagh	71·3	65 3	—6 0	48·6	50 7	+2 1

From this it will be seen that in all cases the night or minimum temperatures have been above the normal, while the maximum temperatures are in all cases below the normal, the defect at Purneah being nearly 10°.

As stated previously, rainfall was general over the whole province at the commencement of the week, and practically all the recording stations have reported rain on one or two days. The heaviest falls have occurred in Chutia Nagpur, the average fall for

this district being 1·62 inches. Orissa has received an average fall of 1·43 inches. South-West Bengal reports a fall of 0·72 inch, South Behar a fall of 0·70 inch, and North Behar a fall of 0·55 inch. The falls in East and North Bengal have been considerably smaller, and while East Bengal reports an average fall of 0·24 inch, North Bengal has only received a fall of 0·17 inch. As the normal fall over the province at this period is not more than one or two hundredths of an inch, it will be seen that the actual fall in all instances is many times larger than the normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 25th of December 1885 :—

4 Meteorological Divisions.	Temperature.						Rainfall.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, ▲ dew.

MEMORANDUM.

THE table appended to this memorandum presents the vital statistics of the principal Municipalities in Bengal for the week ending 12th December 1885. The figures in it indicate—

1. That the birth-rate in these Municipalities amounted to 25·6 per 1,000 of population against very nearly the same ratio, viz 25·4 per 1,000 during the preceding week ending 5th December, and the death-rate to 39·4 against 42·8 per 1,000, showing a large decrease in the registration of deaths.

2. That the undermentioned Municipalities furnished the highest proportions of births and deaths :—

Births.

	Ratio per mille.
Naraingunge ...	62·1
Jessore ...	42·8
Bali ...	38·6
Uttarpara ...	37·8

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans, above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorised form of age classification.
